TRUMAN STICKS TO GUNS IN STEEL FIGHT

Felons Still Holding Out In Michigan

Plot To Seize State Prison Arsenal Fails; Peace Bid Refused

JACKSON, Mich. (AP)—Heavily-armed police smashed a plot of riot-torn Southern Michigan Prison's mutineers to break into the prison arsenal today.

The barricaded felons, using the lives of 10 prison guard hostages as a bargaining weapon, meantime demanded that Gov. G. Mennen Williams enter peace negotiations.

State police upset a plot of the mutineers to smash into a tunnel leading from their fortress Cell Block 15 to the prison administration building.

The administration building contains the prison's big arsenal.

The convicts were reported to have ripped off a metal cover over a tunnel entrance within Block 15. A sound of banging and clattering gave them away and a score of rifle-carrying state police and guards rushed in to the tunnel to nip the escape attempt.

Negotiations resumed after a midnight peace bid to the hold-out convicts from Warden Julian N. Frisbie.

There were signs that prison heads were willing to go along with some of the mutineers' demands.

Subsequently, came the demand for Gov. Williams' participation.

Earl Ward, insurrection leader, made the demand in a telephone talk from besieged Block 15 to deputy warden George Bacon. Ward demanded the governor's signature to any agreement.

Talks with Ringleader

For ten minutes this morning Ward talked through a barred window with Dr. Vernon Fox, assistant deputy warden and prison psychologist.

Afterwards, Dr. Fox went to the prison kitchen, presumably to get food for the 173 block inmates now going into the third day of their fierce holdout.

Frisbie talked on the phone at midnight with Ward, psychopathic robber. The warden said he expected Ward to call him back today.

The holed-up convicts accused the prison system of "brutality" and demanded reforms in a number of phases of prison administration.

"The demands are not unreasonable," Frisbie conceded, "but there are no grounds for some."

He made the statement to a reporter as he waited for contact with Cell Block 15.

Frisbie sought to conciliate the mutineers' spokesman in an attempt to save the lives of 10 prison guards held as hostages.

The convicts say they will put the hostages to death if any attempt is made to rush their stronghold. A force of 600 state police and guards concentrated at the prison.

In flaming rioting Monday that caused $2,000,000 damage to the "big house," one convict was killed and at least nine were injured. State police had to fire volleys to get equipment into the prison yards to put out fires.

Before the worst of the rioting was quelled, four state troopers were injured and three prison guards were beaten.

Sporadic outbreaks in various cellblocks heightened tension Tuesday.

Violence broke out among the

Mutiny Over At Rahway

RAHWAY, N.J. (AP)—Rebellious convicts at Rahway State Prison Farm surrendered meekly to authorities late Tuesday, ending a five-day mutiny.

The 231 rebels, who had been barricaded in a dormitory wing for almost 115 hours, gave up after freeing eight guards they held as hostages.

300 Workers To Call At Marion Homes

More than three hundred volunteer workers are ready to swing into action Thursday evening in the climax of the 1952 Cancer Crusade.

They are to call at every home in Marion Thursday evening between 6 and 8 o'clock to ask for donations to the $9,000 fund sought in the county to carry on the work of the Cancer Clinic and help fight cancer on a national basis, and to distribute information that can help Marion County residents protect themselves from cancer.

This year's slogan, "Cancer Strikes One in Five—Strike Back," summarizes the need for public support of the American Cancer Society and its hundreds of local agencies such as the Marion County Unit.

Everyone Knows Importance

There will be little fuss or fanfare in connection with the campaign. "We feel that nearly everyone realizes how cancer can blight a life, whether it be his own or someone in his family. In our campaign it's largely a matter of giving everyone in the county a chance to help support the deserving work that is being done to combat cancer," said Jackson H. Taft, campaign chairman.

Workers have been assigned specific areas to cover, and will make a quiet house-to-house campaign. Every donor will receive a receipt showing his or her name and the amount of the gift. Half of the money obtained will remain in Marion County and the other half will go to national research, training and other phases of the continuing fight against cancer.

Harding High Class To Give Play Tonight

Curtain time is at 8:15 tonight for Harding High School's Senior Class play, "Room For One More."

The comedy drama, dealing with the problems of the Rose family, will be presented on the stage of the Palace Theater. Tickets may be purchased from members of the Senior Class or at the theater boxoffice.

The story revolves around Mother and Poppy Rose, who love children and admit raising them is the thing they want to do despite all financial difficulties. When Poppy dies, however, all the weight of raising five children, three of whom are adopted, falls upon Mother.

All ends happily when Jimmy John, an adopted crippled child, literally "not only pulls his own weight but the weight of the whole family" in a surprise ending.

The first performance of "Room For One More" was given at the theater at 2:30 p.m. today. Tonight's performance is the last.

Unhurt By Fiery Explosion

Troops Look Up Into Hot Heart of A-Bomb Blast For First Time

By HOWARD W. BLAKESLEE
Associated Press Science Editor

ATOM BOMB SITE, Nev. (AP)—For the first time men have lived, unhurt, who stood under and looked up into the flaming, hollow heart of the cloud that rushes upward from an A-bomb.

This happened to soldiers and officers close to the giant explosion yesterday at Yucca Flat.

It also happened to five Congressmen who went into trenches with the troops. They are W. S. Cole (R-NY), Olen Teague (D-Tex), Melvin Price (D-Ill), Chet Holifield (D-Calif) and Carl Hinshaw (R-Calif.).

What they saw and learned is the first chapter in a new atomic chart for survival:

This bomb was greater than anything in Japan or Bikini, and just over or under the most powerful we have fired in the United States. That particular bomb's identity is secret.

The fire-cloud followed the fireball, and swelled to miles in diameter, with red flames and yellow gases swirling in whirls bigger than Niagara Falls.

The cloud drifted over the heads of some officers.

Looked Right Inside

"We looked right up inside," said one. "It was hollow, but you could not see daylight through the hole. It was like an umbrella and whirling crosswise like a smoke ring. The inner dome was ribbed with dark and light colors, the dark ones probably nitrogen dioxide."

The desert under the bomb was moist from rains Saturday and Sunday. The flash of heat lasting three seconds—baked this area white, with alkali giving the color.

For more than two miles in all directions the bomb started fires in Joshua trees—a cactus about 10 feet high. There was the smell of scorched brush all around. One temporary first aid shack burned to the ground. The blast that followed the heat flash blew out most of the fires.

The troops—closer than anyone has approached except in Japan—knelt in trenches, two to several in each. They faced the bomb, with heads bowed just below the top of the dirt.

They joked, and they jumped up and laughed after the terrific flash of light and heat had passed. But their trenches felt hot for those three seconds.

Learned To Shut Mouth

Then they learned the first lesson—keep your mouth shut. Nearly all were standing still in trenches, looking up, mouths open, when the blast drove a wave of dust into their faces.

Every man would have been a burn casualty except for the shadow of the trenches.

A tank was placed almost at the edge of "ground zero" directly under the bomb. The hatch was left open to see what would have happened to men inside. They would have been killed by heat.

Planes on the ground far away had twisted tails or spot burns. Most weapons were not seriously damaged.

Signboards more than two miles away were ripped from their posts, but troops not much far-

Flood Workers Raising Dikes At Kansas City

KANSAS CITY (AP) — Flood workers built their levees higher at Kansas City today—spurred by the Missouri River's fresh destruction upstream and a continued pattern of rain.

They said the extra height wouldn't be needed, but they wanted to have it—just in case.

Eisenhower Drive Gains More Power

General Posts Big Edge in New York, Pennsylvania Voting

By The Associated Press

Eisenhower-for-President leaders staked a claim today to the lion's share of Republican presidential-nominating votes in New York and Pennsylvania, where the general scored lopsided election victories Tuesday.

In the Pennsylvania popularity poll, Gen. Dwight Eisenhower drew 728,476 votes in 7,194 of 8,421 precincts. This compared with 128,149 write-ins for Sen. Robert Taft of Ohio and 100,389 ballot votes for former Gov. Harold Stassen of Minnesota.

In the race for 60 Pennsylvania district delegates, Taft and Eisenhower slates collided over eight posts from the Pittsburgh area. Eisenhower forces led 6 to 2.

Taft's name was not on the ballot—he kept it off and urged his supporters not to write it in—and his backers called the results "meaningless." But Eisenhower leaders hoped this showing, plus 10,186 votes the general drew among Democrats, might bring the state's 70 votes his way at the GOP nominating convention in July.

In New York, friends of Eisenhower won seven of 11 primary contests, indicating he will receive at least 85 of the state's 96 convention votes. Taft backers won three and one was undecided. The results seemed to strengthen the hand of Gov. Thomas E. Dewey, who wants Eisenhower as Republican presidential nominee.

None Instructed

There was no popularity race in New York and the Pennsylvania preferential had only Eisenhower and Stassen listed on the ballot. None of the convention delegates picked in both states was instructed to vote for any candidate for presidential nomination.

Sen. Estes Kefauver of Tennessee got the bulk of the write-ins in the Pennsylvania popularity poll—46,274 from 5,023 of the 8,421 precincts. President Truman was second with 12,580, followed by Eisenhower with 10,186.

Even so, Kefauver had no guarantee of any of the 70 Democratic delegates from Pennsylvania. Pledges to support the popular choice, signed by many delegate candidates are not binding.

W. Averall Harriman, mutual security director, had most of New York's 94-vote Democratic delegation sewed up. Harriman, "favorite son" candidate until he launched his nation-wide bid Tuesday, is endorsed by 45 of the state's 62 Democratic county chairmen. Sen. Herbert Lehman and Rep. Franklin Roosevelt Jr., both of New York, head his national campaign committee.

Other political developments:

Herbert Brownell Jr., former GOP national committee chairman, joined the Eisenhower organization. His job: to work for delegate support at the Chicago convention in July.

Eisenhower was quoted as say-

William Dowler, Musician And Composer, Dies at 82

WILLIAM DOWLER

William Dowler, 82, for many years identified with music and its development in Marion city and county, died at 5:50 p.m. Tuesday in the City Hospital. He had been ill for a month and was removed to the hospital a week ago. Death was caused from flu and complications.

A career of more than 65 years as composer, bandsman, director, teacher, organizer and in the field of business, ended with his death. At the time of his death he was director of the orchestra at Epworth Methodist Church, and was actively engaged as a piano tuner. He had served as director of the church orchestra since 1912.

Mr. Dowler first entered the music business with George Baker, operating a store on W. Center St. With his brother, the late Jess Dowler, also a musician, he operated Dowler's Music Store from 1911 to 1926, and continued the operation of the store for several years after the latter engaged in other business.

In 1912 Mr. Dowler organized Dowler's band which played on civic and fraternal occasions. One of the band's outstanding performances was its participation in parades and providing programs at the Harding Home during the presidential campaign of Warren G. Harding. Throughout his years he also directed several minstrel

Kettering To Talk at Scout Event Tonight

A capacity audience of Scouters are expected to hear Charles F. "Boss" Kettering, speak tonight at Masonic Temple.

The event is the annual fellowship banquet of the Harding Area Council, Boy Scouts of America.

Kettering's deep interest in Scouting and his personal friendship for some of the Scouters of the council made it possible to secure the famed scientist and inventor as guest speaker. He is vice president of the General Motors Corp.

A feature of tonight's program will be unit awards and decoration of the council's top Scouter with the Silver Beaver medal.

GM Official Gets National Award

Charles Kettering, guest speaker at the annual Scouters banquet here tonight, was one of seven men chosen Tuesday as winner of Horatio Alger Awards, International News Service reported.

He was voted the honor by ballots circulated among over 3,000 educational leaders throughout the country. The awards are given annually to the men who, in the opinion of those polled, have in the American tradition risen from humble beginnings to the most outstanding achievements and service.

Kettering rose from lineman for the Dayton, O., County Telephone Company to vice president of General Motors and world famous inventor.

Other winners were: Ralph Bunche; Milton Eisenhower, president of Pennsylvania State College. James J. Kerrigan, president of Merck and Company; Thomas E. Millsop, president of Wierton Steel Company; Norman V. Peale, spiritual leader; and W. A. Roberts, president of the Allis Chalmers Manufacturing Company.

Man Run Down By Own Plane, Hurt Slightly

LeRoy Sipes, 38, of Galion was slightly injured Tuesday when he was run over by his own light plane at the Marion Municipal Airport.

Airport Manager Charles Reifsnyder said Sipes turned on the ignition and opened the throttle of his plane and then attempted to start the engine by turning the propellor.

The engine started immediately and Sipes was forced to jump to one side as the plane ran past him he caught a wing strut and held on in an attempt to stop the plane.

Reifsnyder was talking on the phone inside the administration building when he saw Sipes hanging onto the plane with it running in circles.

Hit By Tail Wheel

Sipes then let go and fell to the ground and the plane ran over him. He was struck in the back by the tail wheel and was slightly injured.

Reifsnyder then ran after the plane, caught it and turned off the ignition. The wing tip of the plane was slightly damaged, he reported. Reifsnyder said he was nearly exhausted after he caught the plane for it was running with the throttle almost wide open. The plane was a conventional model Aeronca 41.

Sipes was taken to City Hospital where he was treated for a sprained back and released.

Reifsnyder said Sipes' attempt to start the engine of his plane by

Faces House Move For Impeachment, Heavy Senate Fire

(Picture of Rep. Hale, author of impeachment move against President Truman is on Page 15.)

WASHINGTON (AP) — President Truman, under heavy Senate fire and facing a House move to impeach him, stuck to his guns today in the fight with Congress over his seizure of the steel plants.

A powerful Senate drive to force him to cancel the seizure order fell just short of the two-thirds majority vote it required Tuesday. But its Republican backers led by Sen. Knowland of California redoubled their cries of "dictator" and cast about for other devices.

Actually 47 senators, 11 of them Democrats, voted for the move, and only 29 voted against it. Not a Republican voted "no." A switch of four votes would have provided the two-thirds margin needed to suspend Senate rules and permit action on Knowland's proposal to forbid the use of any federal funds in the seizure.

The Senate already had voted Monday, 44 to 31, to ban the use of any money in a specific appropriation bill to carry out the order, but its backers said this was only a seizure.

The Senate banking committee ordered a new investigation into government handling of the steel dispute, which many of its members have denounced vigorously.

But the group quit talking about reprisals that might demolish the whole wide structure of wage and price controls, although it called a month's delay in the writing of a bill to continue them past the June 30 expiration date.

Short-Term Extension

Highly placed committee members, including vigorous critics of the program, told a reporter they now expect the controls will be continued without much change, but probably only until next March instead of the two-year extension the President had requested.

The impeachment resolution, introduced without full GOP consultation, went to committee amid predictions it would never come to a house vote. Neither this nor other reaction jarred Truman loose from his position on the issue and his aides went about the business of carrying out his orders.

Republicans in the House were reported split over the move by Rep. Robert Hale (R-Me) to impeach the President for his handling of the steel fight.

Hale, however, said he had picked up support. His resolution calls for the rules committee to investigate the plant seizure and report to the House, "together with such resolution of impeachment or other recommendation as it deems proper."

Truman's boss of the seized steel plants, Secretary of Commerce Sawyer, was reported about to take his first official move to hand the CIO steel workers a big part of a disputed pay boost.

Employers refused to grant the raise without government permission to increase steel prices $12 a ton.

Arnall Firm

And price administrator Ellis Arnall, who submitted to a six hour questioning by the banking committee Tuesday, was reported by committee members to have budged not an inch from his White House-approved stand. He is against allowing the steel plants to raise prices more than about $3 a ton, as now permitted by the price control law.

The Senate labor committee, whose past actions have had a strong pro-administration flavor, called Philip Murray, CIO president and head of the steel workers union, to air the workers' side of the story at a public hearing.

The White House planned to release during the day findings of the mobilization advisory committee, composed of representatives of industry, labor, agriculture and the public.

Fall Lines Out

Drop Predicted In Prices Of Shoes and Clothing

By SAM DAWSON

NEW YORK (AP) — Families fighting the battle of the budget are being promised further savings in shoes and clothing.

Prices of most spring lines are down from last fall and the new lists for next fall now being announced show even further cuts.

Lower shoe prices reflect the sharp drop in the price of leather. As a result, the Leather Industries of America predict America's shoe bill this year will be 500 million dollars lower than last, although it thinks Americans will buy 490 million pairs this year, 20 million more than last.

Nine leading makers of men's suits have announced in the last 10 days, as expected, that their fall prices will be from one to six dollars lower than last fall.

This follows the drop of raw wool to below pre-Korean levels, and the drop since January of worsted fabrics to about pre-Korean levels. These cuts will show up in suits this fall and next spring, reflecting the time lag between the mill and the store. But suit makers warn that the rise in labor and other costs will keep suits from following wool all the way back to pre - Korean prices.

RETAIL PRICES of cotton textiles have dropped in the past year, and may continue on the downward side for some months, according to Louis M. Bernstein, merchandise administrator of Macy's New York store. He tells the Association of Cotton Textile Merchants of New York, however, that textile prices at the mills should now be around the bottom, and the second half of this year should see some firming in prices.

The same strengthening later in the year is expected for prices of raw wool, fabric and suits by Jerome I. Udell of Max Udell & Sons, clothing makers. He thinks the lower prices on suits now being announced will improve retail sales and turn prices firm. He also looks for a gain in sales as men start returning from their tour of military service.

Shoe prices reflect the world-wide slump in the price of hides—one of the sharpest declines of any commodity. Some hide prices are the lowest since the spring of 1941.

Merchants report pre - Easter shoe sales good this year. Sales usually drop off after Easter. But many in the trade expect a pick-up in both the making and sale of shoes later in the season, since inventories are reported low.

ONE SHOE JOBBER says he is buying fall lines of children's and misses' shoes at 10 to 20 per cent below year-ago prices. A maker of men's work shoes announces a five per cent price cut, his fourth reduction in 15 months. A moccasin maker, his spring line priced $1 a pair lower at retail, says sales are running 75 per cent ahead of a year ago.

But a maker of women's novelty shoes, who is making another small price cut at wholesale, doubts if the merchants will pass it on at retail. He notes that retail profit margins have been shrinking and thinks merchants will need the saving for themselves.

Noting a rise in store expenses, the National Retail Dry Goods Association says 1951 retail net profits were 1.5 per cent below 1950. The profit of 2.4 per cent on the sales dollar was the lowest since 1939. And many a merchant is losing sleep trying to figure how to restore his profit margin.

Miss Zuck Is Named Editor Of Quiver

The editorship of the Quiver, Harding High School's yearbook, has passed back to the girls this year.

Miss Georgeann Zuck, daughter of Mr. and Mrs. John J. Zuck of 618 Windsor St., a junior, has been selected as editor-in-chief of the Quiver staff for 1952-53. Don Ballinger is now serving as editor.

Announcement of the appointment was made today by Miss Mary Jo Stafford, Quiver advisor.

Sharon Burke has been named photo editor. Selected as secretaries were Marty Gamble and Aljean Turner. Lennette Smith, Pat Titus, Sharon Evans and Tony D'Eramo will act as copy editors.

Gavin Kemmerly, Jim Ferguson and Sandra Raizman will be in charge of advertising. Bill Leffler will manage the business angle.

Positions yet to be filled are student photographer, artist and bookkeeper.

The Quiver is celebrating its 40th anniversary this year. The first issue was printed April 12, 1912. It began as a 20-page monthly publication of the scholastic and social activities of Marion High School, then located on W. Center St.

Burglars Cut Safe With School Torch

Special to The Star

SYCAMORE — A loss of $225 in cash and at least $600 in damage was reported in a breakin at the Sycamore School Monday night.

The damage was the result of a ruined safe door and other doors in the school. The doors were jimmied by the burglars. The door of a large walk-in safe was ruined when a hole large enough for a man to crawl through was burned with an acetylene torch.

School authorities said an entry was gained through a gymnasium window. The burglars apparently went directly to the superintendent's office where they attempted to tear their way through the wall to the rear of the safe. Failing in that attempt, the burglars made their way to the school's shop where they took an acetylene torch and tank to the office and burned their way into the safe.

Officials at the school say the burglars apparently were well-acquainted with the school, since they went directly to the office and the farm shop.

The breakin and burglary was discovered Tuesday morning when school employes reported for work.

Marion Should Give Generously

THERE have been few if any instances in the past in which Marion city and county failed to do their full share in contributing to the relief of communities anywhere in this country that were stricken by disaster and destitution. The record shows that our response almost invariably has been prompt and generous.

That is as it should be, not only because it is the right thing to do as an expression of true brotherhood, but because it gives us a golden opportunity to show appreciation and gratitude for the blessings which we have enjoyed in this locality where nature has always been so kind and gentle.

Here there are occasional storms and unpleasant weather disturbances, but very seldom have the elements dealt severely with us. So it is with glad and grateful hearts that we should pour generous gifts of money into the funds now being raised by the Red Cross to relieve the suffering and destitution which beset so many thousands in the western flood areas.

We are told that only a small fraction—a very small fraction—of the $1,800 marked down as Marion County's quota in the flood relief fund has been contributed. That is almost unbelievable in this community so bounteously blessed by health, happiness and prosperity. The most plausible explanation of this regrettable situation is that the people of Marion city and county have merely overlooked and unintentionally neglected their obligation to do their part in the nation-wide answer to this urgent call for help.

If such is the case, it is a situation easily remedied. But the remedy should and must be applied promptly. It requires simply sending or taking a flood fund contribution to the Red Cross office. Or give that office a phone call and no doubt some volunteer worker will gladly go to your home or place of business to get your contribution.

Please don't delay, for delay often results in forgetting, and just one such slip of memory may cost the life of some victim of the flood's devastation.

Monopoly in Steel

IF THE steel industry had become a management and ownership monopoly in the era when trusts were being formed, it would have had the power to do what labor monopoly in the industry now does with government help.

Consumers would have had to buy the industry's product at the price and on the terms decreed by the monopoly. For more than a generation, the government, reflecting popular opinion, has opposed this tendency.

The result has been to confine the largest combination in the industry, U.S. Steel Corporation, to a little less than half the business in steel. Independent companies have survived and flourished by taking advantage of circumstances of competition which favored them.

But the main purpose of the long legal battle to depress monopoly in the steel industry was thwarted by development of a labor monopoly. The finishing touch of this development would be the imposition of a union shop.

Even without that last touch, consumers of steel now are aware that the continuation and growth has the power to dictate the price of steel and the terms on which steel shall be furnished to consumers.

The paraphernalia which makes this possible in the present instance is of incidental importance—the Wage Stabilization Board recommendation which had the force of a decree, seizure of the entire industry by presidential edict and now the fantastic statement by the secretary of commerce that he will meet United Steel Workers demands unless the steel industry meets them first.

The public has lost, as things stand now, the protection it demanded against combinations in restraint of trade when the threat was raised by owners and managers. The same threat now is raised by labor monopolists.

From a Hole in the Ground

WHEN everything has been said about the unwillingness of some of the old hands in the Air Force to resume flight hazards as reservists, there still is something which no one is saying about old hands in the Army and Navy.

Granted that their duties may not call for equal hazards, except in combat areas, there must be a vast number of things they would prefer not to be asked to do when they are called up as reservists.

But it is assumed in their branches of the service they will do these things anyway within the general philosophy indicated by "c'est la guerre," accompanied by that characteristic French shrug.

It can only be guessed what they actually are saying as they read about the Air Force ruckus. But a good guess is that what would be said by an infantryman huddled in a hole in the ground in Korea would be unprintable.

The Political Picture

By David Lawrence

How Presidential Situation Looks

WASHINGTON

WITH THE REPUBLICAN national convention eleven weeks away, the situation in the two major parties at the moment may be sized up as follows:

1. Neither Senator Taft nor General Eisenhower is assured to the Republican nomination. Nor has the situation developed to the point where a deadlock or the selection of a compromise candidate is assured either.

2. President Truman has enough influence to pick the Democratic nominee and will exert that influence at the proper time. He has said he will not accept a draft but there is a chance he may be nominated and given a formal chance to decline or accept.

3. Governor Adlai Stevenson of Illinois is the strongest man on the Democratic side and may yet be drafted when Truman declines and comes out in his favor.

The statement issued by the Illinois governor was positive and unequivocal so far as he is concerned, but it doesn't foreclose the chances of a draft. In that statement, Governor Stevenson said:

"I have repeatedly said that I was a candidate for governor of Illinois and had no other ambition. To this I must now add that in view of my prior commitment to run for governor and my desire and the desire of many who have given me their help and confidence in our unfinished work in Illinois, I could not accept the nomination for any other office this summer."

* * *

BUT SUPPOSING the many who have given Mr. Stevenson help in Illinois and to whom he has made the promise to run again for the governorship should change their minds and petition him to accept—thus releasing him from the obligation to serve in the State House because of the higher call of duty—wouldn't such a plea suffice especially if the national Democratic convention presented its claim as having priority over the Illinois race? Merely to ask the question is to indicate the flexibility which the situation surrounding Governor Stevenson still possesses, and this need not imply the slightest doubt of his sincerity or forthrightness of his statement on the matter.

So far as the Democratic convention, which meets on July 21, is concerned, it can well be imagined what the pressure will be on Stevenson if the Republican convention on July 7 turns down General Eisenhower. Are not many of those Republicans of independent mind likely to be willing to vote for Governor Stevenson? There is much talk of a Stevenson-Russell ticket. The idea is being discussed widely on the theory that Senator Russell would make an excellent second man on the ticket if there could be a compromise worked out on the civil rights issue.

* * *

THE DEMOCRATIC party generally is somewhat dispirited and depressed about the kind of standard bearer it can have for 1952 and the fundamental urge of the delegates is to pick someone who can win. The talk of a Stevenson-Russell ticket comes largely from those quarters which feel that, despite all other considerations of detail in platform planks, it is more important to assure another Democratic victory.

The Republican race, on the other hand, shows signs of breaking up the Republican strength. The kind of campaign being waged by some of the anti-Eisenhower groups is sure to alienate independent voters. Here, curiously enough, the urge to win is not yet strong enough to take a broad view of the whole campaign. There are some Republican politicians who would rather lose another election than give up their ultra-conservative position on many issues or their stand on withdrawing from Europe. They are miscalculating again as they did in other presidential campaigns, but they do not see it that way. They honestly believe that there are enough Democrats converted to conservatism or quasi-isolation policies to make a majority. But, if they really believe this, they are not making friends for their cause by the type of insidious attacks being made on General Eisenhower.

Senator Taft has had no part in such tactics and probably is much embarrassed by these obviously unfair attacks sponsored by some of his supporters, but the question in the next few weeks will be to what extent the Taft managers nevertheless are going to make themselves responsible for the sort of campaign that has begun already. A split in the Republican party can be fatal for its chances in November—but there are some Republicans who evidently don't count the cost of friction till it is too late.

Where Does He Stand?

Satisfied Customer

By TRUMAN TWILL

THERE HAD BEEN no occasion until lately to put in a word of gratitude for the medical profession at its best. That is the way we have seen it, with few exceptions.

On a recent Sunday, we spent several hours in the home of a doctor. The doctor was not there. On his "day off" he was covering more territory and having a hand in more grief than most of us would expect to handle in a 40-hour week.

He had to deal with a narcotics addict who came from a considerable distance in a taxicab to try to take advantage of his sympathy; it didn't work. He helped to clean up the mess after an auto accident. He made two visits to the hospital and answered a number of house calls. Between times, he took telephone calls and suffered with a sprained back which would have justified calling in a doctor.

More recently, there was an occasion to call the Twillery family doctor for an after-dark visit on his "afternoon off." In less time than it takes to get a sick room shipshape, he was there. He brought with him a working supply of the newest wonder compound the case called for, a headful of background information about the illness he was dealing with and a bedside manner which left the household with a sense of security.

* * *

HIS PATIENT was a child he had brought into the world during the blackest days of the depression, sending no bill for the job until urged to do so more than a year later. At one time or another, he has come to the rescue of every member of the household, for everything from ingrown toenails to major illnesses.

There never has been a time when he was too busy, too tired, or too wrapped up in his own affairs to do everything in his power to handle the situation to the best of his ability. He never has been grouchy about a call in the middle of the night or a false alarm; there have been a few.

All of which needs to be mentioned occasionally by a satisfied customer to offset a small part of the grousing and groaning about the only profession besides the ministry which administers comfort to the public. Lawyers, as they frankly acknowledge, are under the handicap of dealing in discomfort too often to be thought of kindly.

It is not that doctors are doing anything unusual—not at all. That is what most of them expected to do when they made the decision to spend all those years preparing themselves to be at the beck and call of human beings who needed help. It is just that their doing of the usual has become unusual as other human beings found more ways and means of keeping themselves from being imposed on.

Here is a satisfied customer who will stack up doctors by the large against any other group of Americans dealing in services to the public. Name one group that gives so much service so uncomplainingly for so little.

Marion County History Brevities

By EDNA S. DUTTON

The journeys of the court and bar to the remote places in the early days of Marion County was attended with fatigue and exposure. The men generally traveled with five or six in the company and with a pack horse to transport such necessities as their own horse could not carry. In passing from one county seat to another the men were generally from six to eight and sometimes 10 days in the wilderness. At all seasons of the year they were compelled to swim every watercourse that was too deep to be forded. It was a common thing, when purchasing a horse, to ask if he were a good swimmer, which was considered one of the most valuable qualities of a saddle horse.

Oatis Case Costs Czechs Loss in Trade

By Edward F. Bomar

WASHINGTON

ONE YEAR AGO TODAY Communist Czechoslovakia threw William N. Oatis into jail.

The Associated Press correspondent's name has become a symbol of free world opposition to Communist fear and oppression. He is still behind bars as a convicted "spy," but it is beginning to cost his Red captors some two million dollars a month in American trade to keep him there.

Commerce department reports show the economic squeeze which the United States imposed in retaliation for Oatis' arrest has reduced the volume of Czech sales in this country by probably 90 per cent and is getting tighter.

The squeeze started last October. The Czechs had been selling an average of more than two million dollars a month worth of their products in this country. The Commerce Department said that in January, the latest month for which figures are complete, Czech imports totaled only $205,622. Included were goods kept in bond for re-export. This contrasted with $3,327,658 worth of shipments for the same month a year earlier.

American exports to Czechoslovakia—controlled by the tight U. S. government licensing system—have almost vanished.

Communist secret agents seized Oatis last April 23 as he was putting away his car for the night in his Prague garage.

State Department officials said today they are still pressing for his release. The evidence that the near-boycott is pinching the Czechs painfully, plus other developments, has led to hope for a break in the case.

* * *

THE PRAGUE regime has hinted it might consider freeing Oatis—now 38—athough at a price the State Department has firmly ruled out. Some authorities believe the Communists have decided they have nothing more to gain, in propaganda or any other ways, by holding him longer. A possible straw in the wind is the recent release of two American soldiers long held in Czechoslovakia.

The lanky former Marion, Ind., reporter was told that with "good behavior" the 10-year sentence imposed on him July 4 would be halved. That was after the Communist-style trial staged inside grim Pankrane prison in Prague. The charges were that as a reporter he engaged in hostile activities against the Communist state and spread secret and malicious information. Three Czech employes of the bureau Oatis headed were given sentences at the same time ranging from 16 to 20 years.

The United States government has officially labeled the charges as trumped up and said Oatis was only doing his job of reporting the news.

There is no information on this side of the iron curtain as to just how Oatis is faring. No American has been allowed to talk with him since his arrest.

* * *

THE CZECH GOVERNMENT announced that he had been brought into court again last month to testify at the trial of 12 "agents of the U. S. espionage service." The Prague radio broadcast his recorded testimony.

The retaliatory trade squeeze on Czechoslovakia began to show results last fall after a slow start. The treasury announced Oct. 3 that since the Communists months earlier had drastically reduced the staff of the American embassy at Prague. The remaining American consular officers were too few and too busy to make out the routine invoices of shipments to this country.

Lacking these documents, most Czech goods arriving in the U. S. are subject to extra customs assessments of 100 per cent of their value. That was tended to price Czech goods out of the American market and thus serves as a partial embargo. In October, imports from Czechoslovakia, which had been running at an average over two million a month, were valued at $1,148,574. Included were a portion later re-exported. In November the receipts sank to $570,005, in December to $561,426 and in January to $205,622.

* * *

FOR THE ENTIRE year imports from Czechoslovakia were valued at $22,394,292, off about four million dollars from previous years.

Meantime U. S. exports to Czechoslovakia were $990 in October, $4,051 in November, $16,701 in December and $10,001 in January. The 1951 total was $1,050,126.

Other American economic sanctions have helped tighten the squeeze although their effect is more difficult to measure. They include the ban placed last June on travel of private American citizens to Czechoslovakia and the ban on Czech airline flights over the western occupation zones of Germany.

The U. S. last October also canceled reciprocal trade concessions granted to Czechoslovakia, but officials maintained this was only indirectly related to the Oatis case.

Lattimore Forgets

By George E. Sokolsky

IT IS AMAZING, when one reads the transcript of the McCarran committee's testimony, how much Owen Lattimore could forget. The Johns-Hopkins professor had an office in the State Department Building (that is, the old building now used as a White House annex), but he seems to have a foggy notion of how he used it and what he did there.

It is all very unimportant except that Lattimore's defenders have painted a picture of a paragon of virtue who is being abused by Senator Joe McCarthy and Senator Pat McCarran, while he grew a halo around his noble head.

The testimony actually does not read that way. He was asked whether he had had a desk in the State Department. He said, yes. Then this colloquy took place:

"Mr. Morris. Were you a close associate of Lauchlin Currie?

"Mr. Lattimore. No, I would not say close. My work brought me into considerable contact with him for a very short period.

"Mr. Morris. Did you in fact have an office in the State Department Building with Lauchlin Currie?

"Mr. Lattimore. I had the use of one room of Mr. Currie's offices in that building."

However, he was living in Baltimore and he only came over to Washington occasionally. It was impossible to get him to say frankly how many days each week he used that room. This is the testimony:

"The Chairman. Answer the question propounded to you.

"Senator O'Conor. It would be accurate to say you used it several times a week over a period of four or five or six months?

"Mr. Lattimore. Yes."

* * *

NOW, IF YOU OR I were given the convenience of office room in the State Department, we would not only remember it, but we would tell our children and grandchildren about it. But not Owen Lattimore! He took such conveniences in his stride. He testified in both executive session and in the open session that his attendance at that office was "irregular and infrequent."

However, the committee showed him a letter dated June 12, 1942 that he had written to "Dear Mr. Kizer." In that letter he had said:

"My home address is as typed above, and my home telephone is Towson 846-W. I am in Washington about four days a week, and when there can always be reached at Lauchlin Currie's office, Room 228, State Department Building; telephone National 1414, extension 90."

Also, Lattimore denied that when Lauchlin Currie was away he opened Currie's mail. Lauchlin Currie was one of President Roosevelt's administrative assistants, and he has been testified about adversely as a foreign agent before this committee. It was Lauchlin Currie who got Roosevelt to appont Lattimore to be Chianf Kai-shek's adviser. All this is in the record.

* * *

SO, AFTER LATTIMORE denied that when Currie was away, he, Lattimore, handled Currie's

The Once Over

By H. I. Phillips

"Issat So?" Department

A REPLY TO A FAMOUS playwright's recent letter to the general public admitting he was a Commie in 1934:

Dear Sir:

I am glad you have warmed up to the American way of life and can now see the glow of democracy in the pattern of the U.S.A. But your letter is not too hot so far as explaining how you came to tie up with Big Joe. You say that you were only 24 years old and a bit actor, making only $40 a week when you joined the Commies back in the depression. There were, however, millions and millions of young men who made less than $40 a week and endured months and years of unemployment without going back on the U.S.A., my boy.

* * *

"At that time," you say, "nearly all of us were menaced by two things, the depression and the ever-growing power of Hitler. Streets were full of unemployed and shaken men." "Nearly all," bub, is an understatement when you speak of the menace of depression. But Stalin was generally regarded as a pal of Hitler and "nearly all" of us saw no comfort in a fight to his arms. Yes, the streets were full of unemployed and shaken men. How right you are! But not all the shaken men wobbled into Moscow's embrace. And our hat goes off to the unemployed and shaken millions, especially the men with wives and families, who, in stark suffering and privation, struggled through without once feeling the urge to join those who could scuttle the United States of America and go for the pitiless arch-enemies of everything for which their country had stood through the years.

* * *

"I was taken in by the hard times' version of what might be called the Communist advertising and recruiting technique," you write. "They claimed to have a cure for depressions." What was the matter with you? Wasn't there anything in the matchless story of America that advertised the glories of its history? Didn't the recruiting techniques of Uncle Sam, open, aboveboard, four-square and 100 per cent truthful strike you as preferable over the undercover, conspiratorial techniques of Russia. Wasn't there (on $40 a week in an era when millions were on the dole) anything in the image of Washington, Jefferson and Lincoln that seemed a better advertisement for freedom and justice than the pictures of Lenin and Stalin?"

You add, "I think it is useful that certain of us had this kind of experience, for otherwise we should not have known Communists so well." Here again you forget the millions who scorned that kind of experience, believing that what they knew about the Commies was plenty.

Oh, well, welcome back. We believe you. All is forgiven. But your explanation, it seems to me, is for piccolo and flute.

Very sincerely,
Elmer.

One Man's Opinion

By WALTER KIERNAN

To show you how confused things are getting the Air Force and one of our leading advertisers have different ideas of what's good for a man "after 35."

The Air Force thinks he should still be flying forward and the ad man says he should be spelling backward.

They gave one fellow two years in the guardhouse because he ran out of flying heart . . . This will give him an opportunity to polish all the medals they previously handed him for superb courage.

He had demonstrated for four years that he had all the courage it takes to win a war but he didn't know that there was to be continuous booking on the sky circuit.

This may not be another step forward toward involuntary servitude in what passes for a democracy but offhand it looks like we've flown another mile in that direction.

It is implied in a democracy that it must have defenders but there's nothing that says it has to be the same guys all the time.

Wyandot 4-H'ers Visit Detroit

Special to The Star

UPPER SANDUSKY—Twenty-five Wyandot County 4-H'ers who recently completed their schooling in the 4-H tractor maintenance course, toured several plants in Detroit as a climax to their club work on April 18-19.

Touring with their 4-H tractor advisors, Robert Creeger and Richard Tong of Carey and Charles Newell of Upper Sandusky, the 4-H boys visited the Ford Rotunda Building and the Ford Rouge Plant. Here they saw the thousands of jobs that are performed before automobile parts even reach the assembly line. They also visited the assembly line where they saw the automobile start as a chassis and roll off the line a completed car.

Following lunch at the Ford Cafeteria, the boys visited the Highland Park Plant tractor line. Here they saw how tractors were being built.

After the trip through the Ford Tractor Plant, the boys went to the Deer Lake Hills Farm at Clarkston, Mich. This farm is an educational and experimental farm for Ford and Dearborn farm equipment. The following day was spent at the Edison Museum and Greenfield Village.

Those attending the tour included: Donald Orians, Cletus Orians, Donald Niederkohr, Donald Droll, Donald Wickiser, Gaylord Derr, Clair Shane, John Romig, Robert Baker, Henry Collet, Paul Wonder, Glen Phillips, Earl Albus, Richard Tong and Robert Creeger, all of the Carey Tractor Club. Those attending from the Wyandot Tractor Club included: Dale Kear, Frank Leighley, Rex Redding, Kenneth and Tom McClain, Richard Stansberry, Harry Southward, Donald Bowen, Charles Newell and W. W. Wharton, Associate County Agent.

BIRD BATHS

Of course you have been feeding the birds this winter; if not, start now to place a bird bath at ground level, also later place bits of cotton or string and yarn in dull colors for their nesting use. In planting shrubs or vines, select those which provide berries for food, many of them are also beautiful when in bloom—elder, dogwood, viburnum, chokeberry, honeysuckle, Virginia Creeper and many others.

Birds will eliminate buying so much D.D.T. and other chemicals, they eat many times their weight in insects during the summer.

Birds have been keeping the insect population down for hundreds of years. The more birds in the garden, the fewer insects to cope with.

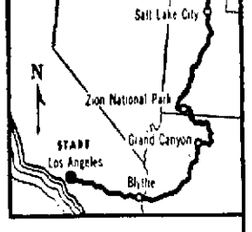
MERCURY BEATS ALL COMERS IN MOBILGAS ECONOMY RUN

GRUELING 1,415-MILE TEST



What a test to prove Mercury and Lincoln superiority! This year's Mobilgas Economy Run covers 1,415 miles from Los Angeles to Sun Valley, Idaho. This longest and toughest test extends from below sea level in Death Valley to 8,010 feet in Arizona mountains. Mercury outperformed all others to win both the grand Sweepstakes prize and Class C 1st place. Lincoln won Class G.

3 WINS IN 3 YEARS!

Lincoln Again Best in Class — Runs Second in Sweepstakes

Now look at Mercury's three-year-in-a-row record in the Mobilgas Economy Run: three out of three times winner in its price class; two out of three times Sweepstakes winner against *all* cars in every class! Look at Lincoln, too. Lincoln won Class G first prize and provided Mercury's closest competition for top Sweepstakes honors.

The Mobilgas Economy Run is open to all cars of every make. To assure an equal chance for all, regardless of size and weight, ton-miles-per-gallon performance* determines the winner.

A 1952 Mercury Monterey Special Custom Sedan with optional overdrive swept the field with 59.7188 ton-miles-per-gallon, averaging 25.4093 miles per gallon. And the engine that did it is Mercury's famous V-8. The Lincoln Capri Sedan with Hydra-Matic transmission won its class prize with 58.9085 ton-miles-per-gallon, averaging 22.3562 miles per gallon.

Right now, in our showroom, is a 1952 Mercury similar to the one that won this official, impartial test. Why not stop around and give it a try? No obligation, of course.

*Ton-miles-per-gallon equals the car weight (with passengers), multiplied by miles travelled, divided by gallons of gasoline used.

Inside Labor

By Victor Riesel

ONCE AND FOR ALL it behooves a lot of decent folk to cease being the secret weapon of the Soviet Union and to stop cavorting with the enemy.

Here is the kind of weirdness into which their purist civil liberties can get this nation of ours, with over 20,000 dead GIs already strewn on the Korean front:

Right this minute, in the heart of Manhattan, a Soviet film firm is distributing an anti-U.S. movie produced by friends of the Sovietized Chinese armies, starring North Korean Communist political leaders, featuring the propaganda chief of the leader of the armies which have mowed down our young soldiers, and blasting the American forces now defending UN principles in Korea.

Furthermore, V. J. Jerome, the cultural chief of the American Communist Party, has circulated orders throughout all Party cells that this film is to be shown in as many union halls as possible as soon as possible. The Party now controls 10 major unions in the very heart of our defense production sectors.

How preposterous can we get? How can our port authorities permit this enemy propaganda to be shipped into the U. S.?

How can our State Department continue to permit the Artkino Pictures Co., at 723 Seventh Ave., right off Times Square (telephone number Circle 5-0570) to act as a foreign agent for enemy propaganda, which this 16mm sound film "Peace Will Win!" most certainly is.

• • •

HOW CAN WE PERMIT this film to be rushed to unions in defense areas, when its star, Kuo Mo-Jo, stood in the Kremlin only a few days ago, on April 11th to be exact, and received the "International Stalin Prize for Promotion of Peace Among Nations" —which is Soviet mumbo jumbo for anti-American activity? Kuo Mo-Jo, in addition to being chairman of the China Peace Committee (official propaganda agency of Red China specializing in turning its Korean troops into fanatics at the war front), is the man who whips the Chinese war workers into faster arms production.

That Friday afternoon in the Kremlin, when Stalin's personal propagandist, Dmitri V. Skobelstein, pinned the medal on Kuo, the Chinese looked at the glittering gadget which had a portrait of Stalin on it and bragged:

"This is not only a signal honor and encouragement to me but also to all Chinese people. Inspired by Generalissimo Stalin and under the leadership of Chairman Mao Tse-tung, we Chinese have won independence, freedom and democracy . . ."

"Especially at present when American interventionists are conducting bacteriological warfare in China and Korea, we Chinese must strive resolutely and unite as one with peace-loving people throughout the world to check this appalling crime so as to defend all mankind and ourselves."

• • •

ALL RIGHT, that was said in the Kremlin, it can positively be reported. But why must it be said on screens in America? That is exactly what's happening. This film, as well as scores of others, is being shown in some of our big cities.

Furthermore, in addition to the Stalin prize winner, there are speeches by such anti-American propagandists and world Communist leaders as Ilya Ehrenberg, Soviet writer, Joliot-Curie, French Communist atomic scientist, the Dean of Canterbury and a red lady by name of Madam Pak Denai, president of something called the League of Korean Women in North Korea, headquarters of the enemy.

The lady in red makes a bitter and thoroughly lying speech about our airmen and aerial warfare.

Small wonder Comrade Jerome's directive to his Communist cultural agents said that, "This film can be brought into thousands of (American) communities, homes, trade-union halls, churches and into the consciousness of hundreds of thousands and millions of Americans. (There is) no single more potent mass cultural instrument . . .

"Bring it to the People!"

This is permitted although the film centers upon a Soviet meeting sponsored by organizations which the U. S. Attorney General's office (in quieter days) labelled "subversive."

This is condoned, as is the showing of pro-Chinese films, in American movie houses such as the Stanley Theatre, 586 Seventh Ave., in Manhattan, a theatre to which come thousands of Communists and sympathizers, with an occasional curiosity seeker, to cheer Mao Tse-tung and Josef Stalin, leaders of the armies knocking off our lads.

How can this be permitted?

Problem at Princeton

By Inez Robb

NEW YORK

IF INFLATION and allied economic ills continue to put the bite on American colleges, the result is certain to be as fine a group of eligible bachelors as the nation's Daisy Maes have ever had a chance to chase.

Princeton University has just announced that it will follow the example of Yale, come the school year of 1952-53, fire and janitors of Old Nassau and turn over such domestic chores as sweeping, dusting and bed-making to the collegians themselves.

This will save Princeton some $70,000 in janitor fees, in addition to initiating a highly educational part-time course in domestic science for the lads themselves.

Princetonians have been holding public mass-meetings, blocking traffic, setting fires in trash cans and making a general nuisance of themselves, by way of protest, ever since the trustees' decision was announced a week ago.

This was to be expected, as men are the naturally conservative sex opposed to change on principle. At the moment, the Princetonians, as the Yales before them, are too short-sighted to see that within a relatively few years graduates of these two universities will be at a premium on the marriage market.

• • •

A GRADUATE of either school is bound to make some girl a good husband. And in view of the universal crisis in domestic help, it should be possible for any Princeton or Yale to gain quick success not only by marrying the boss's daughter but, in all probability, his wife.

So suppose the flashy successor to Princeton's Dick Kazmaier had to be yanked from the Cornell game in the autumn of '52 because of housemaid's knee? C'est la domestic guerre, lads, or kismet, if you prefer.

And in the future, any Princetonian who comes to class unprepared can look the prof square in the eye and say, "Doc, I was too busy doing my home work."

For years I have been battling for equal rights for men, Yale and Princeton are pioneering the way.

• • •

THE PROTESTING Princetons are merely being stubborn. They bring to mind that willful little group of women who for years fought suffrage and the privilege of strap-hanging in bus and subway.

From my own personal observation of dormitory life at such classy colleges as Vassar, Wellesley, Barnard, Princeton, Harvard and Yale, the discontinuance of janitors and maid service could scarcely affect the squalor in which collegians of both sexes love to live.

Parents work their fingers to the bone to provide their children with a cultured background in a home filled with English sporting prints and antiques with genuine worm holes. A stray glove in the living room or a garment on the floor is the unforgivable sin.

Then they send their offspring away to a fashionable and costly college. And when the old folks turn up to visit Junior or Eloise, they—the parents—must want to kill themselves over the futility of it all.

Because Junior and Cloise are happily ensconsed in expensive dormitories that are, from my observation, largely furnished with orange crates and rejects from the Salvation Army warehouse. I have seen rooms and suites in the above-mentioned colleges that would make the Jeeter Lester dwelling on Tobacco Road look like a mansion among the station wagon set.

For the life of me, I can't see that the presence or absence of janitor service makes the slightest difference. Somehow, out of the litter, these kids manage to unearth a diploma at the end of four years.

As for the Princeton boys: I am surprised at their tears. Anything Yale lads can do, surely Princeton men can do better.

Where is the Old Nassau fighting spirit? Come on now, Sis, Boom, Bah — a long tiger and three wet blankets!

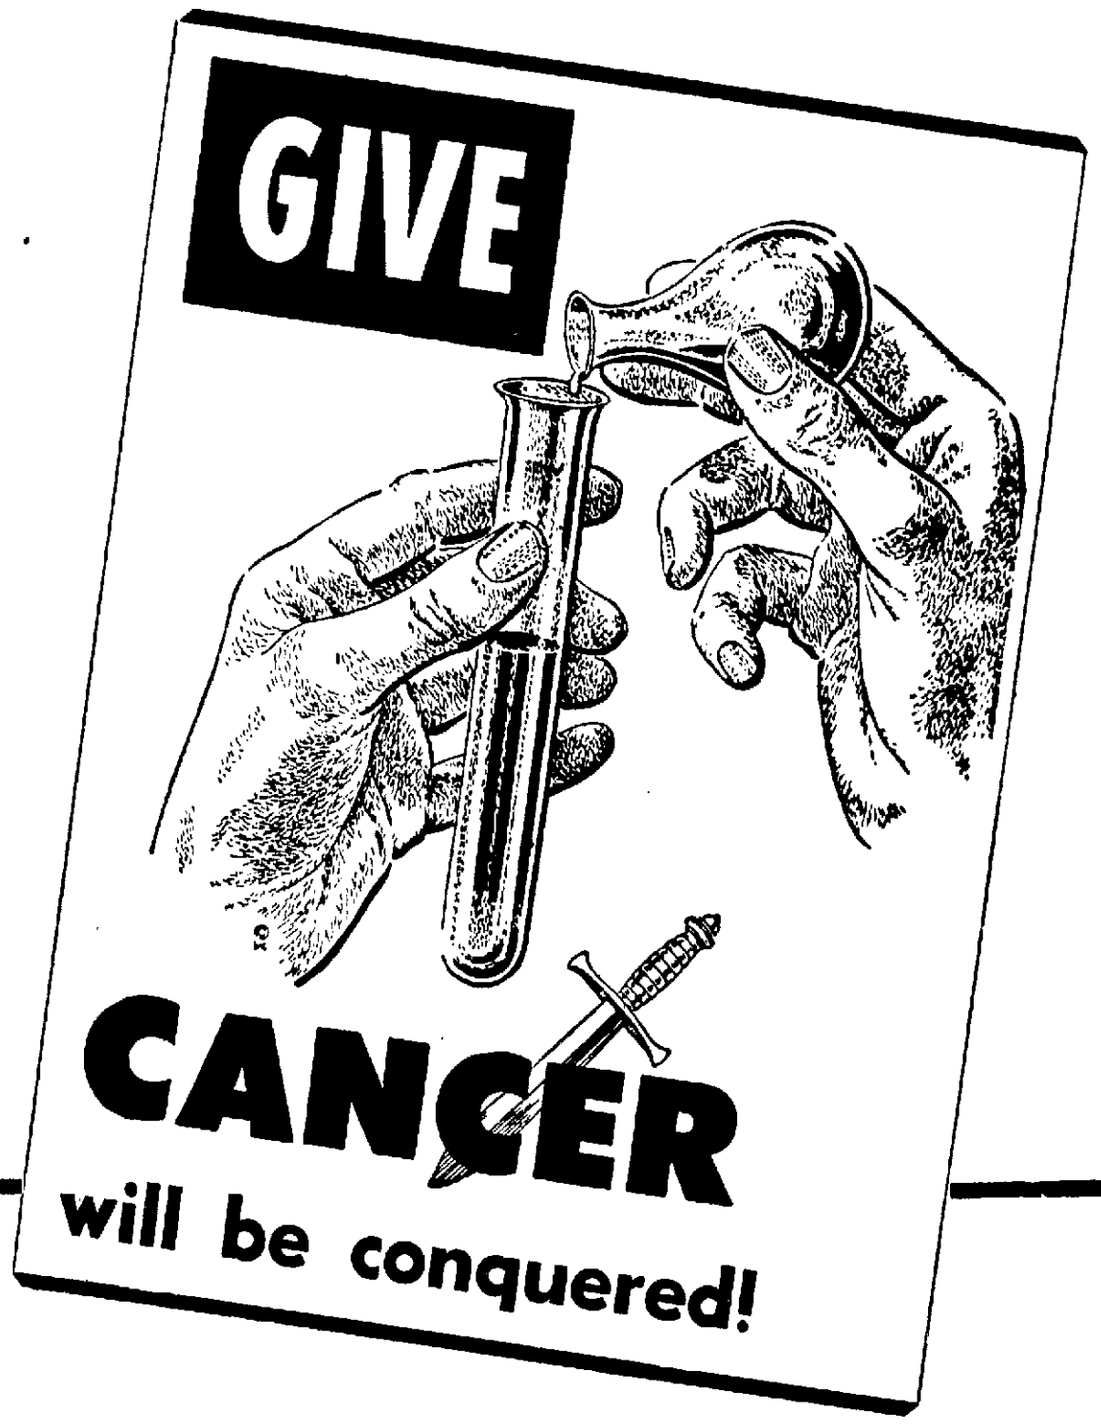
Fight Cancer!

Not long ago "cancer" was a dreaded word. People shrunk from its sound, closed their minds to its implications. Today the battle is on to bring cancer out into the open — to combat it — to conquer it! Thursday evening, April 24, between 6:00 and 8:00 a member of the Cancer Crusade will knock on your door to give you up-to-date information and to ask you to fight with knowledge and money. Facts are needed to help you fight this merciless killer; dollars are needed to carry on treatment, to establish clinics, to conduct research. Open your heart by opening your door to fight cancer!



CANCER STRIKES ONE IN FIVE...

STRIKE BACK!

Here are the facts: Over 600,000 Americans are now undergoing treatment for cancer. In 1951 cancer killed over 200,000 people — more than four times the entire population of Marion County! But 70,000 of those deaths were needless and could have been avoided if the disease had been detected early and treated.

WATCH FOR THESE 7 DANGER SIGNALS!

1. A sore that does not heal. 2. A lump or thickening in the breast or elsewhere. 3. Unusual bleeding or discharge. 4. Any change in a wart or mole. 5. Persistent indigestion or difficulty in swallowing. 6. Persistent hoarseness or coughing. 7. Any change in normal bowel habits.

Major Crime Increases In Ohio, FBI Says

Up 7½ Per Cent Over 1950, Annual Report Shows

WASHINGTON (AP) — Major crime rose sharply in Ohio cities last year.

The FBI's annual crime report shows crime in 143 Ohio cities went up 7.5 per cent in 1951 over the previous year.

An increase was noted in cities all across the country—but the national average rise was 2.3 per cent below that recorded in Ohio.

The FBI tabulated its report from information filed with it by local police officials.

The report mentioned a 5 per cent national increase in rural crime last year, but provided no state-by-state breakdown.

Ohio city police reported an increase of 5,087 last year over the 67,494 offenses known to them in 1950.

Murder and non-negligent manslaughter cases rose from 201 to 216; negligent manslaughter from 141 to 146; rape from 369 to 428; aggravated assault from 1,875 to 2,083; larceny from 42,811 to 47,214; and auto theft from 5,036 to 6,221.

Reversing the trend, there was a reduction in the number of robbery and burglary cases in 1951.

Ohio police reported 2,000 robberies in 1951 as compared with 2,249 the previous year and 14,163 burglary cases in '51 as compared with 14,812 in '50.

The report gave specific figures for 33 Ohio cities over 25,000 population.

Marion One of 17 Cities With Increase

Marion was one of 17 Ohio cities reporting an increase in major crime last year.

The killing of James Keys of Marion last May increased the number of murder and non-negligent manslaughter cases from zero to one. Paul Richardson of Marion pleaded guilty to a manslaughter charge in the Keys killing and was sentenced to serve 1 to 20 years in the Ohio Penitentiary.

Harriman 4th Democrat To Enter Race

WASHINGTON (AP)—W. Averell Harriman, foreign aid trouble-shooter and "a great liberal" in the eyes of President Truman, is the fourth avowed candidate for the Democratic presidential nomination.

The wealthy 60-year-old New Yorker launched his nation-wide bid with a promise to fight for the administration's domestic and foreign policies—"social progress for all our citizens and farsighted, unfaltering world leadership."

He emphasized, at a news conference Tuesday, that he is "an active candidate," not just a "favorite son" holding New York's 94-vote delegation until leaders decide whom to back at the national convention.

Harriman, now mutual security director, is a disciple of the late President Roosevelt's "New Deal" and Truman's "Fair Deal" programs. His service with the administration, chiefly in foreign affairs, dates to 1933, Roosevelt's first year as President.

Patrol Lists Two Accidents

A truck towing a manure spreader was considerably damaged this morning when it turned over in a ditch on Route 30-S, half a mile south of the Crawford County line in Morrow County. The spreader was moderately damaged.

The accident occurred when Gene A. Wirick, 19, of Lexington, O., lost control of the truck as he was driving south at 6:05 a.m. Wirick was not injured.

Another one-vehicle accident reported by the patrol occurred Tuesday on Route 42, a mile south of Cardington at 3:40 p.m. Virgil Homer Lowe, 72, of Cardington was driving north when he lost control of his car and drove off the road on the right side, hitting a utility pole.

Lowe was treated by an Ashley physician for scalp lacerations and a fracture of the left hand. His car was considerably damaged.

One arrest Tuesday was also reported by the patrol. Fred W. Hoch, 62, of 702 S. Prospect St. was charged with passing over the yellow line at a hill crest on Route 23 at 12:25 p.m. He was cited to appear in Marion Municipal Court April 28.

Queen Contest Set for Armed Forces Day

Members of the Armed Forces Day Committee, setting up the Marion observance of Armed Forces Day May 15, today announced plans for selection of an Armed Forces Day queen to reign during the observance.

Preliminary plans for the selection were made Tuesday night at a meeting of the committee. The queen, to be known as Miss Armed Forces Day, will be selected from one of the 11 high schools in the Marion County system, Harding High School or St. Mary. Further plans for the selection will be announced later, committee members said.

The usual west to east route for parades in Marion has been abandoned for the 7:30 p.m. Armed Forces Day parade. The marching units will form on E. Center St. at Baker St. and will march west, traveling through the West Towne area, and disbanding at Park Blvd. Floats and military equipment will be included in the parade.

A token unit of ROTC members at Ohio Wesleyan University will march. The group includes only a small portion of the ROTC at OWU.

New Bloomington Postoffice Entered

A break-in at the New Bloomington postoffice was reported today.

Preston Cleveland, postmaster, upon reporting for work this morning found the front door ajar and the one-room building ransacked. Only 64 cents, all in pennies, was taken, he said.

Entry was made by breaking a pane of glass in a rear door, it was observed. Time of entry was placed between 7:30 p.m. Tuesday and the time Mr. Cleveland reported for work today.

R. C. Alexander of Marion, postal inspector, and Malsolm Severns, deputy sheriff, are investigating.

Mrs. Richard Brandt, Mrs. John Waddell and Mrs. Malcolm Severns are co-chairmen of the citywide house-to-house campaign. The six ward leaders are: Mrs. Neldon Peacock, Ward 1; Mrs. Robert Boltz, Ward 2; Mrs. Fred Keck, Ward 3; Mrs. William Buettin, Ward 4; Mrs. Rodney Cox, Ward 5; and Mrs. Howard Geer, Ward 6. They have ward and precinct organizations that will conduct the citywide drive. The contributions will be totaled Friday morning at the Fahey Banking Co. under the direction of Francis B. Huber, treasurer of the Marion County Unit.

Other Communities

In the townships and other communities in the county, campaign activities are headed by Mrs. Lynn Coulter of Caledonia, Mrs. Calvin Retterer of Waldo, Mrs. A. B. Augenstein of Claridon, Mrs. John Ruth of Richland Township, Mrs. Justin Parsell of Marion Township, Mrs. Clifford Smith of Green Camp, Mrs. William G. Lehner of Prospect, Mrs. R. E. Baumgardner of Scott Township, Mrs. Kenneth Pangborn of Tully Township and Mrs. Robert Rea of Grand Prairie.

The rural organization has been active for several days, and will continue its work for several more days because of the travel distances involved in reaching all homes in the county.

Many other phases of the campaign are well under way. A special gifts committee headed by William Cowles has raised several hundred dollars in advances solicitations. Working in this group are Harold Fralich, Harold Mouser, Robert Holliday, Richard Zelgman, James Smithson, William Clauer, William Payette, Mrs. Virginia Garfield, Mrs. Virginia Edson, Mrs. Marilyn Ferry, Mrs. William Clauer, Mrs. Betty Ralston and Mrs. Dorothy Frost.

Jack Bray Jr. and John Dugan, co-chairmen of advertising and publicity, are assisted by a group of members of the Marion Sales-Ad Club in helping to create public interest in the campaign.

Posters have been distributed among business places, blotters are being distributed at supermarkets and by utilities companies, coin containers have been distributed among business places throughout the county and special solicitations have been made among industries, retailers and organizations.

MEDINA CRASH KILLS 2

MEDINA, O. (AP)—Two automobiles crashed headon on U. S. Route 42 Tuesday night, killing two persons and critically injuring two others. Fatally injured in the crash two miles south of nearby Lodi were Jesse R. Shadley, 26, of West Salem, O., and Mrs. Martha Eckert, 36, of Dunkirk, N.Y.

TAX COLLECTOR CITED

WASHINGON (AP)—House tax scandal investigators developed testimony today that Joseph D. Nunan and his wife made cash deposits of about $50,000, and didn't report the funds on income tax returns, while Nunan was commissioner of internal revenue. Nunan was the government's top tax collector in the years 1944-47.

High School Students Talk To Rotary

Delegates to World Affairs Institute Give Reports

Three Marion high school students, who were delegates to this year's World Affairs Institute, a sixth annual event, presented discussions of institute activities for the program at the Marion Rotary Club weekly luncheon meeting Tuesday at Hotel Harding.

The three, Tom Huber of St. Mary Parochial School, and Marilyn Green and Jim Larsen of Harding High School, gave reports of their experiences at the Institute, which was held March 7-8 in Cincinnati.

Local delegates to the Institute are sponsored by the Rotary Club. Representatives have attended each year from here since the affair was started.

Introduced by Teacher

Introducing the three speakers was Mrs. Mildred Grigsby, teacher at Harding who was acting chaperone on the trip. In her introduction she said "The problems they discussed were profound, pessimistic and personal. I was pleased that at the critical age of 18 they could look at them impersonally and objectively."

Reporting on the first general session, Jim Larsen, gave highlights of the talk, "Peace Is Our Goal," given by John Duncan Miller. He pointed out that the object of NATO is "to build the U.N. defenses so that any attack will be concluded before it begins."

He also told of a panel discussion in which questions about the proposed armament of West Germany and the reason for the Lisbon Conferences were presented and discussed. The main subject discussed was NATO.

Tells of French View

Tom Huber, in telling of the second general session, described another panel discussion concerning the "French View of NATO."

He declared, "NATO has certainly had one quality of success as not one country has fallen to Communism rule since its beginning." He also brought out, "France has had little time in peace to rebuild."

The last session was briefed by Marilyn Green. In concluding her report on the discussion of "The Riddle of The Far East," Marilyn contended that, "We need more spiritual power and we must try to reach the people behind the iron curtain and show them that democracy is better than the tyranny they are living under."

Guests of the club, introduced by Wilson Tway, included Harold Tate of Cardington, Homer Schmidt of Marshalltown, Iowa, and William Taylor of Marion.

Student reporter from the Harding High School journalism classes was Barbara Wolf.

Eisenhower

(Continued From Page 12)

ing the government's answer to excessive control "is more control" and that there has been federal "abuse of the taxing power." Sen. Frank Carlson of Kansas, an Eisenhower backer, said the general made the statements in a recent letter to a friend.

At Jacksonville, Fla., Kefauver said in a radio address that America's major problem is building a sound peace structure. Kefauver said he would be the next president if he could translate popular support into nominating delegates.

Louisiana's Republicans, split wide open by a Taft-Eisenhower factional feud, convened at Alexandria today to choose four at-large delegates. They rate 15. Of 11 already picked, Eisenhower forces claim a 9 to 2 edge, Taft forces claim a 6 to 5 margin.

In Washington Tuesday, Sen. Charles Tobey of New Hampshire, an Eisenhower backer, swapped heated statements over Louisiana's Republican tussle with Rep. B. Carroll Reece of Tennessee, a Taft man. Each accused the other's faction of trying to swipe the Louisiana delegation.

In Montgomery, Ala., states rights Democrats meet today to decide what to do about being denied a place on the state's primary election ballot. They refused to pledge support of the national party's nominee. Court action upheld their rejection by the state executive committee.

SENIORS TAKE TOUR

SYCAMORE — Wyandot County High School seniors were making a tour of Columbus today on an annual trip sponsored by Probate Judge Russell Kear. The trip is sponsored each year for senior class members in the interest of combatting juvenile delinquency. The group was accompanied by Judge Kear and was to tour the Ohio Penitentiary and other state institutions.

FIREBALL FORMS. A vast ball of fire forms over the Nevada desert as the Atomic Energy Commission detonates a "nuclear device" at Atomic Bomb Site, Nev. White streaks at left are caused by rockets fired virtually simultaneously with the atomic explosion. The explosion, billed as one of the two biggest atom blasts ever triggered in this country, flashed with such brilliance that it was clearly visible in Las Vegas, 75 miles away.

"Not So Bad," Report GIs Dug-In Near Site of Blast

ATOM BOMB SITE, Nev. (AP) —Another bunch of atomic GIs have come through a nuclear baptism with renewed confidence in their ability to take it.

More than 1,500 men Tuesday joined the exclusive society whose charter members were installed in the first atomic maneuvers last Nov. 1. Most of them shared the view of Master Sgt. Robert L. Johnson, 140th Fighter Bomber Wing, Clovis Air Force Base, N. M.

"With good foxholes and trenches, I think we can take anything—atomic or otherwise," said Johnson, 38, of Denver.

He and fellow Denverites now at Clovis Field got a good spray of dust from the blast, but like other units came through uninjured. Cpl. Donald R. Miller, 18, was the baby of the ex-Colorado Air National Guard outfit.

Another 18-year-old, Sgt. Anthony Rampino, the Bronx, N. Y., said: "It wasn't as bad as I thought."

Lieutenant's Account

Rampino's first lieutenant, William Musegades of Fairmont, Minn., gave an account of what the men of the 135th Regiment, 47th Infantry Division of Camp Rucker, Ala., went through:

"At H minus 2 minutes we knelt in our trenches, put our faces down in our hands. I covered my eyes tight but when the flash came it was brighter than having someone shine a powerful flashlight in your eyes."

History's first atomic smoke jumpers—the 120 men who parachuted down behind the nuclear dust curtain—took it as another job—and not too tough a one.

Master Sgt. John Kessling 23, Fayetteville, N. C., and 2nd Lt James Murphy, 23, Oklahoma City, said their men jumped from 1,000 feet about an hour and 45 minutes after the blast. Another hour and 15 minutes later they were advancing past ground zero without danger.

ther were unhurt, because they knew how to take cover. They wore no goggles and no extra protective clothing.

Radioactivity Low

The radioactivity in the ground directly under the blast was so low that attacking troops could have marched in immediately and stayed for 30 hours. One reason was the great altitude of this explosion, 3,500 feet. At that height A-bombs do not make the earth very radioactive.

The bomb plane missed its target by 200 feet, from 30,000 feet altitude. For atomic weapons that is pickel-barrel accuracy.

Wanger Gets 4 Months For Shooting Agent

SANTA MONICA, Calif. (AP) — Walter Wanger, producer of many a movie epic, turns farmer for four months starting June 4.

That's the date he's due to report at the sheriff's honor farm at nearby Castaic to serve his sentence for shooting Jennings Lang, agent for Wanger's wife, actress Joan Bennett.

Superior Judge Harry J. Borde found the silver-thatched moviemaker guilty Tuesday on a reduced charge of assault with a deadly weapon, a misdemeanor. The county grand jury had indicted him on a charge of assault with a deadly weapon with intent to commit murder, a felony.

Judge Borde said he did not believe Wanger intended to kill Lang, Wanger's bullet, fired last Dec. 13 in a Beverly Hills parking lot in the presence of Miss Bennett, struck Lang in the groin. Lang has since recovered. The case was submitted to the judge on the basis of the grand jury transcript.

Wanger accused Lang of stealing his wife's love, but Miss Bennett and Lang deny it.

The Gila River, in southwestern United States, has a drainage area of about 13,000 square miles.

Marion Student On Tour With Oberlin Orchestra

A Marion musician, Miss Marjorie May Keeler, student at the Oberlin Conservatory of Music, recently returned from an Eastern tour with the conservatory orchestra of 90 pieces.

Under the direction of David Robertson, head of the conservatory, the orchestra made its Town Hall debut in New York City, played a program in Pittsburgh and presented a concert at the Music Educators National Conference at the Academy of Music in Philadelphia.

The musicians were given a warm reception and were invited to return to Town Hall and also to tour Europe.

Miss Keeler plays viola and this year is assistant first violist. She has appeared in a number of student recitals as soloist and also with an ensemble group, and an accompanying ensemble on Senior recitals. She recently played viola in an ensemble of the Second Festival of Contemporary American Music. The music for the festival was by composers who are at present or who have at some time been connected with the college. On this program Miss Keeler played the viola part in a first performance of Joseph A. Woods' "Serenade" for flute, two violins, viola, cello and bass.

Besides playing viola in the orchestra, Miss Keeler is studying piano, voice, theory and stringed instruments. She is a junior in the Conservatory, entering after her graduation from Harding High School in 1949. She is again continuing her studies throughout the summer and plans to graduate with a music education degree in June next year. At Harding she was a member of the National Honor Society.

Miss Keeler and her mother, Mrs. Melvina S. Keeler spent the Easter vacation with the latter's mother, Mrs. May Summers of 132 W. Walnut St.

mail, which ordinarily would have to do with White House business, the counsel for the McCarran committee confronted the professor with the following letter which he had sent to E. C. Carter, the head of the Institute of Pacific Relations:

"Dear Carter:

"Currie asked me to take care of his correspondence while he is away and in view of your telegram of today, I think I had better tell you that he has gone to China on a special trip. This news is absolutely confidential until released in the press."

Lattimore had forgotten about his opening White House mail which passed over Currie's desk as administrative assistant to the President. All that he could say on the subject was: "Obviously, my memory was inaccurate."

Then, this colloquy followed:

"Mr. Morris. That is written on White House stationery, is it, Mr. Lattimore?

"Mr. Lattimore. Yes, dictated to Lauchlin Currie's secretary.

"Mr. Morris. Are you acquainted with the testimony before this committee that Lauchlin Currie aided an espionage ring in Washington during the war?

"Mr. Lattimore. No, I don't remember seeing that."

The professor forgot so much! In fact, as one goes through this testimony, it is difficult to discover what Lattimore actually remembered about what he did.

THEY LOST FIVE CHILDREN. Stanley Peugh, 29, comforts his sobbing wife after five of their eight children were burned to death in a fire that leveled their one-room home near Baltimore. Both parents suffered burns trying to save Patricia, two-year-old twin who later died at a hospital. The children ranged from three years to two months. Firemen said the blaze, at nearby Ellicott City, was caused by an oil stove explosion.

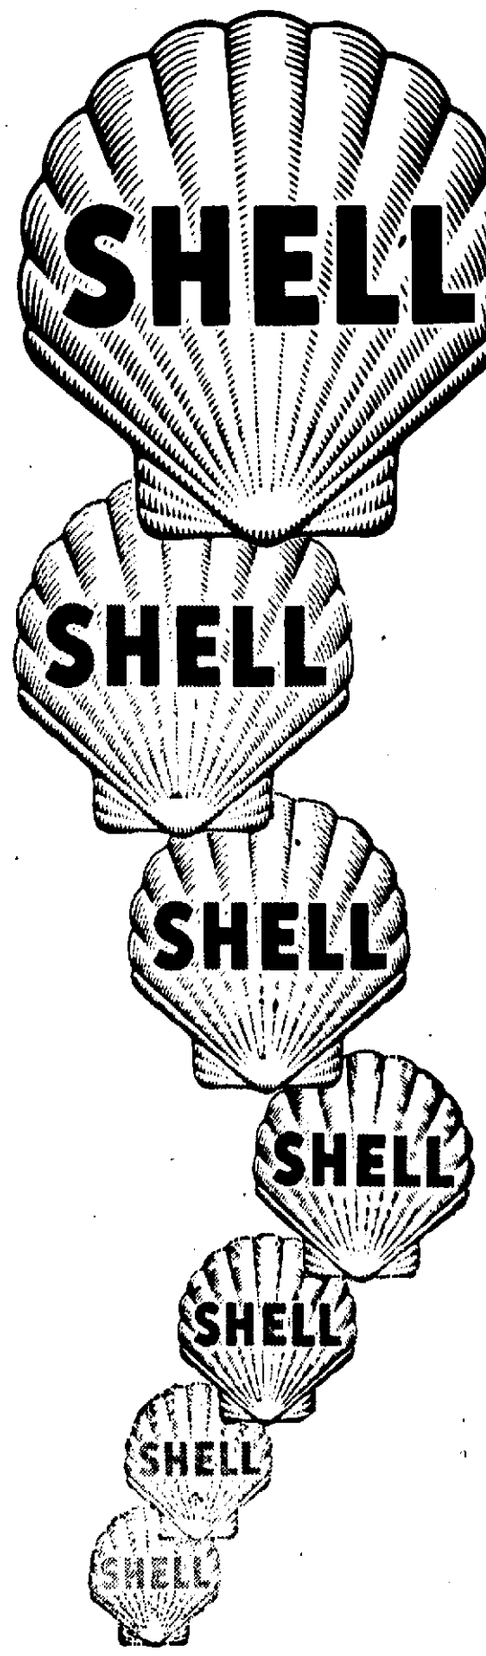
The Most Powerful Gasoline Your Car Can Use!



It's Activated

Today's more powerful engines require a highly complex gasoline to deliver their full power. There can be as many as 1500 different chemical compounds in a gallon of gasoline.

To select the best of these chemicals, and to arrange them properly to fulfill the needs of *your car* calls for the last word in refinery equipment and scientific skill.

It is Shell's manufacturing policy to make "The most powerful gasoline your car can use." Shell activates gasoline by splitting and rearranging petroleum molecules.

• • •

The result—Shell Premium—the most powerful gasoline your car can use. See the Shell Dealer in your neighborhood.

In Loving Memory

★Of Leonard Ruhl, who passed away six years ago, April 23, 1946.

It was in early evening
God swung his portals wide,
An angel came down to guide him
Across the great divide.
God called him home, it was His will,
The blow was hard, the shock severe
We never thought his death so near.
Only those who have lost can tell,
The pain of parting without farewell.
Six years have passed, how long it seems;
But in our hearts your sweet face beams,
For we who miss him only know,
How much we lost six years ago.
Sadly missed by his wife, Ida, children and grandchildren.

130 LICENSES SOLD

A total of 130 house trailer licenses have been sold to date, County Auditor Maurice Clements reported.

Licenses for house trailers parked within Marion County must be purchased by April 30, or the owners face a possible $50 penalty, he said. Clements said there are probably about 250 house trailers in the county which are subject to the tax.

NO FLIGHTS TODAY. There'll be no flights in or out of Rosecrans Field, the municipal airport at St. Joseph, Mo., due to the depth of the water from the flooding Missouri River. When the river crests late, Army engineers say that the water level will increase two feet more on the airfield. The flood waters are expected to crest at slightly under 27 feet.

Love Triumphant

By ADELE GARRISON

For the fraction of a second I did not know whether my father was going to smile or frown at Dicky's extravagant gesture. Then his lips twitched into a grin of amused approval, something in which he rarely indulges.

"I think you've called the turn son," he said. "Or, rather," he amended, "Margaret has. Congratulations, my dear," he added, turning to me. "This removes the old objections of Harry to Marion or Lillian receiving any portion of Robert Savarin's legacy. And Ronald, surely, can find no reasonable objection to using as a loan—you'll see that's the way he'll want to consider it—money which is lying useless now, but which once saved his stepfather from financial ruin and self-destruction."

My tell-tale face must have reflected the thought in my mind for my father gave me a keen look.

"Something is troubling you, Margaret," he said. "Would you mind telling us what it is?"

"It's just that I wish Ronald would take that money as a gift," I said. "You see, it's legally mine. Suppose something should happen to me— I should go bankrupt, or something—it would all go."

Dicky gave an amused snort—it was too brief a sound to be called a laugh. Then he set his face into the lines of a hanging judge.

"Are you contemplating the juggling of stock in Wall Street?" he asked. "Or, perchance, have you a finger dipped into the narcotics racket?"

My father ignored his gibing, and answered me seriously.

"I can understand your—tremors," he said, "although I am sure they are wholly unjustified. And, I should advise you to go no further at this time than getting Ronald to accept part of the legacy as a loan. Then, if—when—children come to him and to Marion, I am sure you will find it an easy task to settle the whole thing on those children for their education."

My sigh of relief was so audible that Dicky grinned in comradely fashion at me, but made no oral comment. I guessed that he felt he had used up his day's allotment in gibes, and meant to go into the silences, unless asked a direct question by my father.

My father also smiled indulgently at my sigh.

"Does that solution of your problem satisfy you?" he asked.

"Indeed it does," I told him. "I can feel the burden loosening from my shoulders already. And, I am more confident than ever that Ronald eventually will take that loan."

"What about Marion?" my father asked. "What is her attitude? You said you had difficulty with her. Are you willing to tell me about it?"

"To the last word," I told him, and forthwith plunged into a play by play account of my trying interview with Marion. When I had finished, my father gave me a benign look—it was the only adjective fitting the expression on his face.

"I think you have great reason for pride, my dear," he said. "Marion evidently will cause you no more trouble on the score of filial scruples. Your path is now smooth before you, except for Lillian, and all of us will help you with her."

He turned from me with an air of finality, and spoke to Katharine.

"Are you ready to talk to me now?" he asked, with gentleness infusing his usual formal courtesy.

By M. ELIZABETH KING

CARDINGTON—This summer will mark the 300th anniversary of the Quaker Church. A reunion of the Mt. Gilead Friends Church near Cardington is planned.

The history of the church dates to 1652 when George Fox, an Englishman, started the movement in rebellion against the state church.

The history of the church near Cardington dates to 1809 when Cyrus Benedict settled along Alum Creek in what is now Peru Township, Morrow County, together with other Quaker families. It is still one of the most active in the state. But in 1816 Jonathan Wood and family came to what is now known as Quakerdom, two and one-half miles south of Mt. Gilead and three miles east of Cardington on State Route 42. At this time, there were no villages nearby, though the Hardenbrook brothers lived on the hill just at the south edge of what is now Mt. Gilead in 1817.

In 1832, Isaac Bunker and others came up from Alum Creek and began to build mills, foundries and other industries on the east branch of the Olentangy at what is now Cardington. In between Bunker's settlement and Quakerdom and south to Alum Creek were dense maple woods. From these forests the Quakers hewed their cabins, and their first meeting house. Maple syrup and sugar and wild honey were abundant and marketable. Gravel pits and farming were other means of making a livelihood. Although a few became merchants and business men, the Quakers are still prosperous as good farmers.

Meetings Started in 1824

In 1824, Isaac Bunker, David Osborne and Aaron Benedict started the Northern Preparatory Meeting which later became Gilead Friends Monthly Meeting. In the 128 years, they have occupied four different buildings, but the present structure was built about 1841, facing north and with a central division which separated the men and women. Repairs were made on the building in 1890 and the partition removed, while the congregation was seated to face the east.

About this time, at a revival meeting, some one started a song. The Quakers, not accustomed to singing in their own church, joined in but without success. A good singer and music lover in their congregation, Henry Mosher, took up the leadership. About 1895, after considerable debate, an organ was brought in. No piano was admitted until 1935.

In 1946, the latest remodelling was completed and the interior as well as the exterior beautified. Now there is a pulpit and a paid, appointed minister. The congregation enters the church from the east through a new vestibule over which is constructed the bell tower, and sits facing the west. Very little of the original austerity remains to characterize the early orthodox Quakers who survived the "great separation" of the Hicksites in 1828.

The Quakers stood on the belief that meetings should be conducted by whomsoever and in whatsoever manner was the leading of the Holy Spirit. However, by 1895, it was decided to call definite leaders to the churches and Joseph Peel was the first appointed minister to serve Gilead Friends. Since that time, frequently, men and women of their own congregation were chosen.

Worked With Underground

Most Quaker homes were underground railroad stations during slavery days, for Quakers played a great part in this work.

Between 1838 and 1895, approximately 25 persons went out from Gilead Friends Church into active religious work. A similar number have gone since that time. Among the most widely known were Rev. Tryphena Milligan Morris, Rev. Mary Howell Sipe, Frank Stanley, Samuel Mosher and others of the Mosher family, Miss Sadie Stanley who went to Jamaica as a missionary; Rev. and Mrs. Charles Matti who went to China; Thaddeas Vaughan who went to India; Paul Parker Jr., to Africa. They are but a part of the many taking part of the movements.

One hundred and twenty-five years after the "great separation," the orthodox and the Hicksite Quakers are once again meeting in certain unified groups. The years have softened the harsh differences.

This summer Gilead Friends Church plans to hold a homecoming and at this time they look forward to meeting hundreds of descendants of early Morrow County Quakers, some of whom have long since been lost track of. They will include both factions of the Quaker church. Dates for the reunion have not been set.

Quaker Credo

The credo of the Quakers and their insistence upon its observance has kept them a vital and yet clannish unit: George Fox's "Justification by faith and sanctification through faith." They have maintained a respected stand against war. They have insisted upon harmony between classes, races and political divisions. The Gilead Friends Church says, "Our aim is to earnestly contend for the faith once delivered unto the saints, to evangelize at home and abroad, and to promote vital personal godliness among the people of God."

The Quakers treat their land as God's acres, their stock as God's creatures and their own bodies as God's human temples, so you will find that of the approximately 150 members, 20 families live in the immediate vicinity of Gilead Friends Church on farms. This vigorous little church was an important factor in the establishment of a pioneer community which became Morrow County, Ohio.

Rev. Kenneth Marsh and family now serve the church and live in the parsonage on the church grounds.

Topic For discussion was Record Books," when the Morral Farmerettes Club held its second meeting April 18 at the school. The next meeting will be May 16 at 7 p. m. at the school.

The size and striking power of the Army's armored divisions is illustrated by the amount of railroad equipment needed to move such a unit from a training camp to a port of embarkation—41 passenger trains and 50 freight trains.

The Equitable Reports

The need and the demand of the American people for life insurance service are greater than ever. During 1951, new business written by the Society totalled $1,200,000,000. To policyowners and beneficiaries, The Equitable paid out $423,742,000 during the year.

Life insurance is a very personal matter. Its services must be adjusted to the individual needs of the policyowner. We, in The Equitable, take special pride in the great field force of competent and enthusiastic agents and agency managers who perform this personal service. Indeed, the greatest single contribution of life insurance to the American public has been the development of a large force of intelligent, trained and enthusiastic field underwriters who are prepared to serve the American people in attaining their goals of individual and family security.

At The Equitable, much time and effort are devoted to the selection and training of our agents and their managers. We think there is no better adult education in the country than that which Equitable makes available to them. We regret, though, that our present policyowners and those who have need of insurance protection and estate planning are not making as much use as they should of the services that this great organization can furnish. Policyowners and their beneficiaries, as well as the insurance buying public who expect to realize the full measure of insurance protection, should consult one of our 8,000 Equitable field representatives and keep in touch with him.

During 1951 The Equitable continued to increase its financial capacity to meet its existing obligations and to take on additional ones. Premium income during the year amounted to $727,003,016 and net earnings from investment operations amounted to $167,459,000. After paying all claims and expenses of operation—including a greatly increased Federal Income Tax and the additions to our policy reserves required by the nature of our business—the margin remaining was $134,000,000. Out of this total we made extraordinary additions to our reserves of $10,100,000, paid or set aside $100,300,000 for dividends and added $23,600,000 to surplus funds. Haskins & Sells, Certified Public Accountants, who have maintained a continuous audit of our transactions during the year, have issued their certificate stating that our accounts and transactions are in conformity with generally accepted accounting principles and with regulations prescribed by the Insurance Department of the State of New York.

Taking a closer look at taxes we find that the Revenue Act of 1951 imposed a new tax on the life insurance companies which cost The Equitable $11,350,000, an increase of $5,100,000 over our tax for 1950. This increase in the 1951 tax took all of the increase in the rate of the Society's investment earnings during the year.

Like everyone else in the land, we feel this increasing contribution to the cost of Government because our Federal Tax payment for 1951 was approximately one fifth of the Ordinary dividends which we set aside for distribution to our policyowners during the current year. Then too, like everyone else in the land, we are suffering from the continued inflation of our money supply—now in excess of $190 billions, up more than $10 billions during 1951—and the consequent depreciation of the purchasing value of our insurance dollar.

It is for these reasons that we in The Equitable have been critical of the monetary policies which shirk the grave duty of controlling the supply of money in these days, when it is principally inconvertible paper. Those who took us off the gold standard, whether they realized it or not, tremendously increased the need for competent, courageous Federal Reserve policies with respect to credit and the supply of money. At least the loosening of the peg on market prices of Government Bonds during 1951 was a step in the right direction.

King's Daughters Unit Meets With Mrs. Clark

Thirty two members answered roll call with Bible verses when the In-As-Much Circle of King's Daughters met Thursday night at the home of Mrs. Marion Clark on Mt. Vernon Ave. Mrs. Dale Lawrence assisted the hostess.

A nominating committee report was given by Mrs. A. E. Mautz and approved by the group. New officers of the circle are Miss De Emma Harwley, leader; Mrs. Walter Dorsey, assistant leader; Mrs. Clifford Bartlett, recording secretary; Mrs. E. R. Barnthouse, assistant recording secretary; Miss Clara Trefz, corresponding secretary, and Mrs. J. F. Neidhart, treasurer.

Mrs. B. R. Prichard was in charge of the program, which included devotions by Mrs. C. H. Bachelder and a review of the book, "In His Steps," by Mrs. Lawrence.

Miss Trefz reported that nine crib sheets had been made for City Hospital, and that 20 dresses had been made and 16 bandages rolled for a leper colony. She also announced that tokens of remembrance had been sent to shut-in members of the circle at Easter.

Mrs. Neidhart reported that a magazine subscription had been purchased for the Marion Training School and Mrs. R. M. Ewing reported on sending milk to a tuberculosis patient. Mrs. W. L. Two Youths Dedicated To Serve Church

At the altar of Oakland EUB Church Sunday morning, Elwin Falor and Raymond Klingel were dedicated as ministerial students in a service conducted by Dr. V. H. Allman, Ohio-Sandusky EUB Conference superintendent. They are sons respectively of the pastor of the church, the Rev. H. V. Falor, and Mrs. Falor, and Mr. and Mrs. F. L. Klingel of Marion. The parents were asked to stand with the student candidates as a gesture of support to their sons.

Dr. Allman spoke of the importance to the candidates of following through on their decision of the responsibilities of their chosen life work, and on the meaning of their undertaking. He charged the parents and the congregation to encourage and stand behind the sons at all times, and conducted a ceremony in which the young candidates placed their hands upon the Bible in token of their faith and pledge to Christian work.

Ceremonies of dedication of an illuminated cross for the sanctuary and of baptismal font purchased recently by the Christian Homebuilders Class were conducted by the superintendent. He spoke on the purpose and meaning of the cross and on the meaning of baptism.

His sermon for the service was on "A Living Church for a Dying Age." This was his first appearance at Oakland Church as conference superintendent. The new cross, which will be illuminated itself, has a light at the back to be focused on the window with the scene of Christ in Gethsemane which will make it visible at the outside of the church. A timing device will turn the light on automatically at night and at the same time illuminate the church's bulletin board. This mechanical system will be ready to go into use soon.

Home Show Exhibitors Entertained

Marion Exchange Club Gives Report On 1952 Event

Exhibitors in the recent Marion Home and Better Living Show were entertained Tuesday night by the Marion Exchange Club, sponsors of the show, at a "get-acquainted" meeting in the YMCA. The meeting is held annually after each Home Show to give exhibitors an opportunity to exchange ideas, criticism, and suggestions for future shows.

John W. Salisbury, Home Show chairman, was in charge of the meeting and introduced Frank W. Phillips, club president, and Harold Gram of GMG Associates in Springfield, director of the show.

Reviews Shows

Gram reviewed the three Home Shows held in Marion, reporting that attendance the second year had more than doubled the attendance at the first show and that attendance at this year's show was 70 per cent higher than last year. He commended the exhibitors and presented a gift to Salisbury in recognition of his work in planning and carrying out the show.

The use of funds obtained from the Home Show was explained by Secretary Marion Brown. The money from the first show is on deposit to provide furnishings for a room at the hospital, while the funds from last year's show were used to purchase portable equipment for the hospital, Brown reported. Use of profits from the 1952 show has not yet been designated, but several projects are under consideration by the club, Brown told the group. The sum of $100 has already been set aside for Judge Edward Ruzzo in his work with juvenile court wards.

Buffet Supper

A buffet supper was served preceding the meeting. Mrs. Salisbury arranged the program, which included tap dancing by Pamela and Marilyn Neville of Waldo, accompanied by their mother, Mrs. J. S. Neville, and a clarinet solo by Jimmy Beverly, two vocal selections by Louise Moyer of Waldo, and two trumpet duets by Carl and Ronnie Breece, all accompanied by Mrs. Salisbury.

More than 60 Exchange Club members, exhibitors and wives attended the meeting.

Find Home Ransacked

7 Boys Suspected Of Vandalism, Thefts

Seven boys, aged 11 to 13 years, are under investigation by the Marion city police on suspicion of entering the home of Miss Marie Ruehrmund at 189 W. Church St. and taking more than $300 worth of items.

The thefts occurred over a period of time prior to April 14, police said. They were discovered after a neighbor reported seeing a boy leaving the home through an open window. Miss Ruehrmund had been away from home.

Police investigated and found the place ransacked. Drawers had been pulled out and the contents dumped on the floor. Police found a number of items missing, including a 32 caliber Winchester rifle, three Masonic swords, a pair of Binoculars, a shell carrying case, and many other items. Police estimated their value at about $300. All the property stolen was recovered.

Police apprehended the seven boys after investigation. A hearing has been set in Municipal Court Friday. Miss Ruehrmund has been vacationing in the west, it was reported. She is a former city school teacher, and has been retired for some time.

Wesleyan Players To Present Play "Twelfth Night"

Special to The Star

DELAWARE — Shakespeare's "Twelfth Night" will be presented in arena style by the Wesleyan Players at Ohio Wesleyan University in the Quonset-Theater April 25 through April 29.

This is the first arena style adaptation of Shakespeare to be produced at Ohio Wesleyan. Dr. R. C. Hunter, professor of speech, will direct the play, which is a comedy filled with love, laughter and music.

The plot concerns a young girl, Viola, played by Jeannette Heine of Circleville, who when shipwrecked in the land of Illyria, disguises herself as a page and enters the services of the Duke, played by William Milne, of Columbus.

A mistaken identity theme arises, as well as ironic complications in which Viola finds herself courting the Lady Olivia, played by Marilyn Kemp of Chicago, on behalf of her master, although she has fallen in love with him herself.

The action of the play presents the follies and weaknesses of mankind by presenting a group of people who have nothing to do but fall in love and play pranks on each other.

N.Y. Stock Quotations

NEW YORK (INS)—The stock market was a fixed affair today with continued pressure on Northern Pacific Railway shares an unsettling feature

Northern Pacific sold off 1¼ points today to 74¾ on top of yesterday's slump of 5 points Heavy selling in this issue was traced to remarks of W S S Rodgers, chairman of the board of the Texas Company, which has large holdings in the Williston Basin Fields in Montana and North and South Dakota Rodgers told stockholders that development of the basin will be expensive and it will be several years before it plays an important part in the country's supply picture Since the speculator rise in Northern Pacific from a low of 31¼ last year to a high of 94⅝ a short time back had been based on the profit potentials of its huge land holdings in the Williston basin, the views of the Texas Company head touched off extensive profit-taking in Northern Pacific stock

mutineers themselves as they purged their own group of dissenters and 'stool-pigeons' They reportedly quarreled over whether to prolong the mutiny and what to do with the hostages

Six inmates were tossed out of Cell Block 15 Five of them were injured but one was shoved out unharmed as 'too old for this sort of thing' Two of the expelled inmates had been beaten with chains They were in serious condition in the prison hospital

Warden Frisbie promised the mutineers 'there will be no mass punishment' if they call it quits and surrender the hostages in safety

The mutineers manifesto included no reprisals against the leaders a more liberal parole policy establishment of an inmate council to meet monthly with the prison administration, an end of the use of 'inhuman restraint equipment' in the disciplinary block better ventilation and light and improved segregation of mental cases

Frisbie said Ward gave no indication when the mutiny might be called off It seems the convict spokesman indicated he would barter for better terms, saying he would write a letter today elaborating in more detail the changes wanted by the convicts in the state's policy of paroling prisoners

At a news conference the warden flatly denied the mutineers' charges of brutality He said however, he would agree to investigate and make any needed reforms in prison administration

Bengals Shut Out By Chisox For Eighth Consecutive Loss

Within Five Defeats Of Mark Set In 1920

NEW YORK (AP)—The Chicago White Sox shoved Detroit's Tigers deeper into the American League cellar Tuesday with a 2-0 win. The loss kept the Bengals streak alive. Red Rolfe's charges now have dropped eight in a row. Five more and the Tigers can tie their own major league record of 13 consecutive defeats at the start of the 1920 season.

Saul Rogovin, an ex-teammate, blanked the reeling Tigers with six hits while Nelson Fox touched Ted Gray for a double and two singles. Johnny Lipon's error and Fox's double that bounced off Don Kolloways glove broke up a scoreless duel in the eighth.

The "new faces" campaign continued to pay off for Lou Boudreau's Boston Red Sox as Rookie Bill Henry, a 24-year-old lefty from Shreveport, won his second straight, 10-5, over Washington. Jim Piersall, the kid shortstop, collected three hits and Don DiMaggio had four, including a home run.

Sain Stars

Johnny Sain, once a curve ball ace in the National League, came through with a fine three-hitter for the New York Yankees to hand the Philadelphia A's their sixth straight loss, 3-1. After Elmer Valo homered in the first, Sain retired 20 in a row before he walked Ferris Fain.

Those Chicago Cubs continued to act like the toughest kids in the block as they hammered Pittsburgh pitching for 17 hits in a 13-2 romp. Dee Fondy was the ring leader with four hits.

Brooklyn threw its southpaw punch against the Boston Braves again and swept a twi-night doubleheader, 2-1 and 3-1 behind Chris Van Cuyx and Preacher Roe. Although Max Surkont and Jim Wilson struck out a total of 17 Dodgers they couldn't win.

Surkont who fanned eight men in the first four innings of the opener, escaped the loss when he faded for a pinch-hitter. Reliever Bert Thiel was touched for Roy Campanella's game-winning single in the ninth after himself fanning two Dodgers. Duke Snider's two-run double ruined Wilson in the sixth inning of the second game.

Giants Win

Bobby Thomson, starting to hit after a slow start, racked up the Phils' Russ Meyer with a bases loaded triple in the New York Giants' 4-1 win. Larry Jansen scattered eight hits and had a shutout until Willie Jones homered in the eighth.

Vinegar Bend Mizell, the St Louis Cards' colorful southpaw rookie, lost his first start to Cincinnati, 2-1. Two walks and a triple by Joe Adcock in the first inning gave Cincy its runs.

Says Rolfe Disliked By Tiger Charges

CLEVELAND (AP)—The witless Detroit Tigers dislike their manager, Red Rolfe, with "a bitterness that can't help but affect their play," Plain Dealer sports editor Gordon Cobbledick said today.

Writing in his column, "Plain Dealing," Cobbledick said this feeling is "beyond the understanding of an outsider" because "Red Rolfe is a newspaperman's delight. He is intelligent, well-educated and a gentleman. . . . If a popularity poll were taken among members of the working press, Rolfe would be a cinch to land among the top three major league pilots."

"But he hasn't won the esteem of the ballplayers," Cobbledick continued. "On the contrary the Tigers' anti-Rolfe feeling is so deep and so violent that some close observers have gone so far as to predict a blow-up comparable to the 'Vitt Rebellion' of the 1940 Indians."

In that year, a number of the Cleveland Indians tried to have Oscar Vitt fired.

Cobbledick, who said he doubts such a rebellion would take place in Detroit, continued:

"But it seems apparent now that the Tigers aren't going to perform well under Rolfe—not because they would shirk on the job, but only because their acute unhappiness will make it impossible for them to play winning baseball.

"How well they would perform under another manager is a question. The Tigers are a fading team, with no visible prospect that the trend can be checked in the near future. Their current line-up is growing old and their farms are bare of talent.

"What Rolfe might have done had he had a steady flow of new material coming in from the farms, or if he had been able to make trades, is something to guess at.

"In 1950, he was acclaimed as manager of the year when he kept his team in first place virtually for the entire season, only to fall out of contention in the last fortnight.

"It was generally conceded then that he had an uncommonly bright future as a manager.

"Now, it is evident that he has no future at all. Not, at any rate, in Detroit."

Redlegs Win, 2-1, On Triple By Adcock

Game Marked By Arguments, Saigh Tax Indictment

CINCINNATI (AP)—The Cincinnati Reds' new found hitting power sagged Tuesday night but just the wee bit left was enough.

That power was a tremendous triple off the center field wall by Joe Adcock which drove in two runs and brought the Redlegs a 2 to 1 triumph over the St Louis Cardinals—their fourth victory in a row.

From there on Wilmer (Vinegar Bend) Mizell, the Cards' highly touted rookie, was in command in a game that had a bit of everything unusual.

There was that sudden blast in the opening frame after two walks by Mizell had set the scoring runners on the bags.

Then there was third inning feudin' and fussin' that saw two Redbirds, including Manager Eddie Stanky, tossed out of the ball game. There was Southpaw Ken Raffensberger giving up five walks—an unhard of total for the crafty left-hander—and he actually threw more pitches than the rookie Mizell.

Hears Of Charge

On top of all of it was owner Fred Saigh of the Cardinals showing up at the ball park only to hear by long distance telephone that he had been indicted by a federal grand jury for alleged evasion of more than $49,000 of income taxes.

Stanky was ejected when he boiled from the dugout to complain because Solly Hemus had been tossed out of the ball game. Hemus had been thrown out by Umpire Scotty Robb for a third strike protest.

The Cardinal manager and Robb got into a near shoving and punching match—and with League President Warren Giles looking on.

Stanky said Robb ejected him on the grounds he (Stanky) had pushed the arbiter. Stanky claimed he hadn't pushed Robb but that the umpire shoved him. Other players and Coach Johnny Riddle of the Cards kept the two apart.

Saigh, who was near tears in various and sundry impromptu corridor and box seat conversations with newsmen, finally left without ever having seen his prize rookie hurler make a pitch. He flew back to St. Louis.

Win In First

The ball game was wrapped up for the Reds in the opening inning when Mizell sandwiched a pair of walks around a force out and then Adcock loosened the concrete in the center field wall with his triple.

They never had a chance after that against the young rookie from Alabama.

Meanwhile, Raffensberger was having a mite of trouble clipping the corners o. the plate with his Sunday pitches. He didn't get into too much difficulty until the sixth, however, when three straight singles produced the Cardinal run. Two great stops by Bobby Adams finally pulled him out of more trouble.

An afternoon game was on tap today with Ewell Blackwell due to seek his first victory against Cliff Chambers.

Pete Poore, sophomore member of the Duke University golf team, hails from King of Prussia, Pa.

Penn Relays Surrounded By Olympic Air

PHILADELPHIA (UP)—Thirteen athletes from six foreign nations will be on hand to stress a pre-Olympic atmosphere at the tradition - steeped Penn Relay Carnival at Franklin Field Friday and Saturday.

Every four years this historic 90-event carnival is regarded as an important testing ground for candidates for the U. S. and other Olympic teams, and this 58th renewal promises to be as brilliant as any in the past.

The 13 foreign athletes, all of them students at U. S. colleges or universities, are among the field of 3,000 athletes from 500 schools.

You can be sure then fans will be paying special attention to: Jamaica's George Rhoden and Lance Thompson, and Panama's Byron LaBeach, all running for Morgan State; Australia's Morris Curotta with Seton Hall; Ireland's Cummin Clancy, John Reardon, and Johnny Joe Barry, all with Villanova, Canada's Don McEwen, John Ross and Jack Carroll, all with Michigan; Sweden's Roland Nilsson with Michigan and Alf Holmbert with Tennessee; and Finland's Denis Johansson with Purdue.

Harding Thinclads In Clean Sweep; Take First In Every Event

The Harding High School track crew completely outclassed visiting Mt. Vernon Tuesday for an impressive, 102-16 win. The Harding runners took individual firsts in all events as well as in the two relay races.

Jack Craft, junior pole vaulter for the Prexy thinclads, set a new mark as he cleared 10 feet, 8¾ inches. The former mark was 10 feet, 8 inches set in 1950 by Dick "Chief" Bender.

Geissler was high point man for the winners. He grabbed four firsts for a total of 20 points. He led the field in the high jump, the 100-yard dash, the 180-yard low hurdles and the 220-yard dash. Captain John Ashworth finished first in the mile run and the 880-yard race. Jim Russell won the shot put with his best throw of the season, 45-9. Big Ten Starts Baseball Race: Buckeyes On Road

CHICAGO (AP) — After a month of warm-up games, the Big Ten baseball pennant chase will start this week end with all teams in action.

Defending Champion Ohio State invades Michigan State for a two-game series Friday and Saturday while Iowa is at Minnesota, Northwestern at Indiana, Wisconsin at Purdue and Illinois at Michigan.

Poor weather this spring has hampered four teams that did not make a southern tour. Their schedules of tune-up games were cut to a minimum. They are Illinois, Indiana, Purdue and Wisconsin.

The other clubs got in some good practice down south and are expected to be better prepared to start the season.

Michigan State won eight out of 12 games on its tour and may be a top pennant contender. The Spartans have enough lettermen on hand to fill every spot.

Ohio State has Centerfielder Stew Hein, Infielder Jack Jones and Catcher Jack Gannon returning and also has probably the league's best mound staff.

Lettermen include lefties Dave Bechtel and Harry Scott and righthanders Paul Williams and Ed Bohnsky. Topping the rookie pitchers is Paul Ebert.

Illinois, runner-up last year, has eight lettermen but only one veteran pitcher, Junior Carl Ahrens.

The smallest baseball park in the National League, as far as seating capacity is concerned, is Crosley Field, Cincinnati. It holds 30,000.

Streak Ends at Seven

Indians "Byrned" 8-3 By Surprising Browns

ST. LOUIS (AP) — Cleveland's Indians shook off the St. Louis blues and hoped tonight that Bob Feller could help them keep the upstart Brownies out of first place.

For the third time in a year, the Browns have had the pleasure of stopping the Indians in a hot streak.

At this time last season, they beat Cleveland in a doubleheader right after the Indians had won seven out of eight. In August, Tommy Byrne beat them, 4 to 0, to end a 13-game winning streak.

Tuesday night, it was Byrne again, defeating them 8 to 3, and stopping the Indians' hope of tying the modern big league record of nine straight at the beginning of the season. Curiously, the Browns won nine straight to open 1944 and won the pennant.

Manager Al Lopez took Tuesday night's loss pretty hard. When a reporter approached him in the dressing room, he said at first: "No comment." Then, thinking better of this, noted that it was a "bad night for baseball."

Played In Drizzle

What he referred to was not his team's jittery performance in the field—the Indians committed three errors plus other blunders—but the rain that drizzled down from the third inning on.

However, he said he had no intention of protesting the game and added that ball player's consolation: "You can't win them all."

The other Indians, looking about as funereal as Al, glumly dressed in silence.

In spite of Cleveland's ragged play, it was a close game until the Brownie half of the seventh. The Browns, leading 3-2, scored five runs in that frame off Lou Brissie and George Zuverink. That finished Cleveland.

About the only Indian who seemed to find Byrne just another pitcher was Al Rosen. Al socked a two-run homer, his third of the season, in the seventh, had a triple but was left on third, and doubled in the ninth. He scored Cleveland's third run in that inning by running home on Jim Fridley's single.

Garcia Belted

For their part, Bill Veeck's Browns played errorless ball and belted 13 hits off Garcia, Chakales, Brissie and Zuverink.

Garcia, who was charged with the loss, allowed three runs, two of them unearned.

They were tallied in the first inning when Mike himself muffed an intended sacrifice and walked Tom Wright to fill the bases. Marty Marion then scored on an infield out and Jim Rivera followed him when Bob Avila threw wildly to first. Avila made another error, booting Earl Rapp's grounder in the third, but no runs were scored.

But the Browns needed no fielding errors to score in the seventh. Brissie filled the bases on three hits and a wild pitch, walked in one run, then let in two more on a single.

Zuverink then came in and allowed a single that scored two more runs.

"D Day" Arrives In Golf Tourney

PINEHURST, N. C. (AP) — Today is "D Day" — doubly dangerous — in the North and South amateur golf tournament. Two 18-hole rounds will cut the field to the eight quarter finalists for Thursday's play.

Of the 32 first round survivors Tuesday there were only two surprises but they were real sizzlers. Two Walker Cuppers of last year, Dick Chapman of Pinehurst and Jimmy McHale of Philadelphia, were the victims. Ray Palmer, Wyandotte, Mich., beat Chapman, reigning British amateur champion, one up.

William Lyndman of Philadelphia beat McHale, also one up, to spoil Jimmy's 36th birthday.

Otherwise the form held. Defending champion Robert Marley of Savannah, Ga., and the three qualifying round leaders, Frank Stafaro, Flushing, L. I., Frank Stranahan, Toledo, O., and Billy Joe Patton, Morganton, N. C., all survived opening tests without extending themselves. None was carried beyond the 15th hole. Stranahan shooting for his third North and South title meets Lyndman today.

Y SWIM MEET OPENS

YORK, Pa. (AP) — Nearly 100 swimmers will be seeking 13 individual and team titles in the 35th annual National YMCA indoor swimming and diving championships Thursday, Friday and Saturday. The top individual stars entered include Frank Dumcheiter, of Canton, O., who last week captured the national junior AAU three meter diving title.

TAKES THIRD IN ABC

MILWAUKEE (AP) — Jack Kilbee of Fort Worth, Tex., forged into third place in the all events of the American Bowling Congress tournament Tuesday. His score was 1952. The only other change among the leaders was in the team division. Rainier Brewery, of Seattle, Wash., leveled 2938 sticks to deadlock Emsue-Williams of Alliance, O., for 10th place.

NO INCREASE

CHAMPAIGN, Ill. (AP) — There will be no increase in price of University of Illinois football tickets next fall. That's the word from Athletic Director Doug Mills.

While our operating costs continue to rise," he said, "members of the athletic board felt we should hold the line on ticket prices. Reserved seats will continue to be priced at $3 plus 60 cents federal tax. And season tickets for five home games will be $10 with tax included."

Cards' Owner Indicted For Tax Evasion

Ball Club Magnate Fred Saigh Is Short $49,620, Govt. Says

ST. LOUIS (AP) — Fred M. Saigh, owner of the St. Louis Cardinals and a business associate of the late Robert E. Hannegan, former postmaster general, has been named in a federal indictment charging income tax evasion of $49,620.

The federal grand jury accused the 47-year-old attorney in a surprise action Tuesday. He is charged with evading taxes on $108,823 unreported income for the years 1946 through 1949.

There had been no suspicion that Saigh was under investigation.

It was during these years that Saigh came into public prominences first as a big-time real estate operator and later as owner of the Cardinal ball club.

In 1947 following his co-purchase of several St. Louis buildings, he became a national figure when he became a part owner of the Cardinals. Then in 1949 he bought controlling interest in the ball club, replacing Hannegan as president.

Hannegan Syndicate

Saigh had been a member of a syndicate headed by Hannegan which purchased the club from Sam Breadon. Hannegan died in October of 1949.

The indictment against Saigh carries five counts providing a maximum penalty, if convicted, of 25 years imprisonment and a total of $50,000 in fines. Each of the counts cites a maximum penalty of five years in prison and $10,000 fine.

The grand jury which returned the indictment is the same jury which indicted James P. Finnegan, resigned St. Louis internal revenue collector.

"Two of the counts claim alleged discrepancies in Saigh's personal income. A third claims a fraudulent return on the corporation's income when he served as vice president of the ball club.

2 Other Counts

Two other counts accuse him of filing fraudulent joint returns for himself and his wife.

Saigh had little to say about the indictment other than it came "as a complete surprise. I knew an investigation had been going on," he said, "but I was of the opinion the case was in process of settlement. This is a personal matter and has nothing to do with the ball club."

FOES ON STEEL SEIZURE ISSUE. Sen. Homer Ferguson (right), (R) Michigan, whose amendment to withhold any new government funds for operation of the government-seized steel industry passed the Senate by a 44-31 vote sits with Sen. Hubert Humphrey (D), Minnesota, who led the administration opposition to the amendment.

Real Estate Board Holds Dinner Program

A dinner meeting and program, for which wives of the members were guests, was held by the Marion Real Estate Board Tuesday night at the Progressive Grange hall. Thirty-six persons were present.

Joe Davis, president of the board, presided as toastmaster. The program included group singing, accordion selections by Mrs. Goldie Swope, and readings given by Mrs. Clifford Stetson. A social evening of getting acquainted followed.

Homer Pellegrinon, former safety-service director of New Boston, has been hired as basketball coach. Darling has been coach at Oak Hill for several years.

DiSalle Speaks At Mansfield

MANSFIELD, O. (AP)—Michael V. DiSalle said last night the majority of the Republicans in Congress many times "voted out of ungoverned hatred and a desire to seek partisan advantage rather than a desire to recognize what is best for the welfare of the nation."

DiSalle, Democratic candidate for the nomination for senator in Ohio, spoke to a Jefferson-Jackson banquet crowd under the sponsorship of the Richland County Young Democratic Club.

He said American voters "will never empower a political party whose principal claim to distinction is destructive criticism rather than honest planning or performance."

Cockney Button Royalty Visits Washington

WASHINGTON (UP) — The pearly king and queen of London's costermongers (street hawkers) visited Washington arrayed in their dress outfits of 60,000 pearl buttons.

The "Royal" couple, Bert and Rebecca Matthews are making an 8,000-mile goodwill tour of the United States with a group sponsored by the British Travel Association. They travel in three London buses.

The "queen" made and repairs their button-covered clothes. She said it's lucky she brought an extra supply of buttons to America because the 'king' keeps losing them off his knees and elbows when he climbs in and out of airplanes, taxis, and buses.

IN BAD TOO OFTEN

MEMPHIS, Tenn. (UP)—Police have arrested Gordon Whitsitt 257 times by his own count. The 53-year-old Whitsitt in city court for the second time in two days, figured up his string of arrests and asked the judge for leniency. He drew the maximum fine.

Tradition has it that a fort on the site of the Tower of London was first built by Julius Caesar.
